

Target Killing of Kulgam Sarpanch: NIA files Charge-Sheet against 6 accused

Srinagar, Sep 10: National Investigating Agency (NIA) Saturday filed charge sheet against six accused in the case of target killing of a Sarpanch from Adoora area of south Kashmir's Kulgam district. In a statement to news, the NIA spokesman said that on September 9, the NIA filed Charge-Sheet in NIA Special Court, Jammu in the case of the targeted killing of Sarpanch Shabir Ahmad Mir of village Adoora, Kulgam by the militants of Hizbul Mujahideen (HM). "The case was initially registered as FIR no. 32/2022 dated 11.03.2022 at PS Kulgam, J&K and re-registered by NIA as RC 01/2022/NIA/JMU on 08.04.2022," the NIA statement said, adding that the investigations have revealed that the handlers of proscribed organization Hizbul Mujahideen (HM) operating from Pakistan, hatched a criminal conspiracy in collusion with militant associates/OGWs and militants of HM active in Kashmir Valley, to carry out the target killing of Sarpanch namely Shabir Ahmad Mir of village Adoora, Kulgam.

4 burglary cases solved in Ganderbal 8 held: Police

Srinagar, Sep 10: Jammu and Kashmir Police on Saturday claimed to have solved four burglary cases by arresting eight accused persons involved in the commission of crime and recovered stolen property worth lacs in Ganderbal. "Earlier this month, Police Station Ganderbal received two written complaints regarding burglary at Govt. High School Kujjar Ganderbal and burglary in a residential house at Saloora Ganderbal. Two more complaints regarding theft of domestic animals from cowsheds at Tengpora village were lodged in PS Ganderbal," a police spokesman said in a statement issued to the news agency—Accordingly, cases under FIR numbers 257/2022, 146/2022, 216/2022 and 240/2022 under relevant sections of law were registered in PS Ganderbal and investigation was set into the motion. On receipt of these complaints, a special team led by SHO PS Ganderbal was constituted by SSP Ganderbal under the supervision of DySP Hqrs Ganderbal.

Srinagar Police Takes Exception Over Assault of Youth By Woman Near Pratap Park

Srinagar, Sep 10: Days after a video-clip went viral on social-media sites showing a woman purportedly assaulting a youth near Sri-Pratap Park in Lal Chowk, district police Srinagar has asked citizens not to take law into their own hands and instead inform law-enforcement agencies for redressal of their grievances. Senior Superintendent of Police Srinagar Rakesh Bhalwal told GNS that it was unpleasant to watch the video. "I strictly ask people not to take law into their own hands, there are various means through which any aggrieved citizen can seek action against anyone, but then engaging in such an act is simply unacceptable", he said. "There are law-enforcement agencies like police and courts to deal with such things and if anyone comes across any misbehavior, he or she can even contact us on our helpline numbers", he said adding we also have dedicated women's cell functioning round-the-clock to facilitate the women.

J&K Emerging as major Hub for Golf in the Country : LG Manoj Sinha

HT News Network

JAMMU, SEPTEMBER 10: Lieutenant Governor Manoj Sinha today attended the finals of the second edition of "J&K Open 2022" Golf Tournament at Jammu Tawi Golf Course, Sidhra. Organized by Professional Golf Tour of India (PGTI) and presented by J&K Tourism, the tournament, with a prize purse of Rs. 40 lakh, has brought together the National and International Golfers for the first time in region, marking their debut in Jammu's Golfing circle. The tournament is part of J&K Tourism's unique initiative of promoting golf tourism in the region. Pertinently, the UT Government is making dedicated efforts to popularize Golf among youth and make the game more inclusive and accessible to common masses to bring Jammu & Kashmir on the international Golfing map with an opportunity for local talent to showcase their skills.

J&K is emerging as a major hub for Golf in the country. The adminis

Lashkar module busted: 4 OGWs arrested in Sopore

Srinagar, Sep 10 (UNI) Security forces have busted a module of Lashkar-e-Taiba by arresting four overground workers in Sopore sub district of Jammu and Kashmir, police said. They said initially two OGWs were arrested at a joint checkpoint set by police, Army and CRPF at Gousiabad Chowk Chinkipora. "During checking, a suspicious movement of two persons was noted and they were asked to stop, but they tried to flee from the spot. However, they were tactfully apprehended. Upon their personal search two grenades were recovered," a police officer in Sopore said on Friday. The two were identified as Shakir Akber Gajre of Kuloosa Bandipora and Mohsin Wani of Chinad Baramulla. "Preliminary investigation revealed that the arrested persons are OGWs of proscribed organization LeT and were in a constant search of an opportunity to carry out attacks on security forces and civilians," the officer said.

"During the course of investigation apprehended OGWs further revealed names of other two members which led to the arrest and recovery of further arms and ammunition which includes one Chinese pistol, one pistol magazine, seven live pistol rounds, 25 AK 47 rounds and explosive material," he added. Police said the other two arrested OGWs were identified as Himayun Shariq of Gousiabad Chinkipora Sopore and Faizan Ashraf Wani of Nadihal Rafiabad.

73 per cent educators in J&K Govt Schools teach Primary, Upper Primary level students, reveal Official figures

HT News Network

Srinagar, Sep 10 (KNO): Of total teachers posted at government-run-schools of Jammu and Kashmir, at least 73 percent of educators were only teaching the Primary and Upper Primary level students, reveals official figures.

The news agency—Kashmir News Observer (KNO) has learnt that at least 37 percent of educators were only teaching the Prima-

ry Level students only.

Besides, it also states that over 36 percent of the teachers were teaching the students of Upper Primary Level only.

According to the figures maintained by Unified District Information System for Education (UDISE), there were a total of 1,016,72 teachers in School Education Department across Jammu and Kashmir out of which at least 38,300 teachers were

posted at Primary Level only followed by 36,908 at Upper Primary Level. UDISE has also maintained that only 15,570 teachers were teaching the secondary level students in Jammu and Kashmir. Likewise, the figures also reveal that only over seven percent of teachers were posted at senior secondary level. "At this stage, only 7839 teachers were teaching the stu-

dents." The data also states that only 2893 teachers were teaching the students at both Pre-Primary and Primary level followed by 85 teachers at secondary and senior secondary level. It also reveals that only 21 teachers were teaching the students of Primary and Upper Primary level and 56 teachers at Upper Primary and Secondary level respectively—(KNO)

21st National Neuro Pedicon 2022 conference begin in Srinagar

HT News Network

Srinagar, Sep 10: The 21st National Neuro Pedicon 2022 conference began on Saturday at SKICC Srinagar in which neurologists from prestigious institutions across India are participating to share their experience with doctors of Kashmir. Dr Muzaffar Jan Professor and head of Department of Paediatrics GMC Srinagar in his welcome speech, as per the news agency—Kashmir News Observer (KNO) said that Neurological diseases are very common in children and "we need to keep ourselves updated and that this conference is being held here after 33 years.

He said that conferences and workshops be

J&K Consultancy Association calls for blacklisting of some Bangladesh colleges

'Deceased students didn't even get mortuary box, students contribute 50,000 dollars from their pocket to avail facility'

HT News Network

Srinagar, Sep 10 Days after Kashmiri students died in Bangladesh, Chairman of Jammu and Kashmir Consultancy Association, Suhail Ahmad Khan on Saturday said that the colleges who have failed to ensure better facilities to the students will be blacklisted.

Addressing a news conference here, Khan, as

per the news agency—Kashmir News Observer

(KNO), said that it is unfortunate that an MBBS student from Kashmir,

who died in Bangladesh didn't even get the venti-

lator when she was battling with her life. "After her death, her body started decomposing as the authorities there didn't provide a mortuary box till the body was sent home. It was only possible when the students from Kashmir there contributed from their own pocket and provided 50,000 dollars to ensure the body is kept in a mortuary box till it is sent to her home for last rites," Khan said.

Centre's reach-out to J&K's Gujjar community President nominates Gulam Ali Khatana as Rajya Sabha member

HT News Network

Srinagar, Sep 10: In a significant move, the President of India on Saturday nominated Gulam Ali Khatana from Jammu & Kashmir as Rajya Sabha member. The Union Home Ministry today evening issued a notification, announcing nomination of Khatana as RS member.

"In exercise of the powers conferred by sub-clause (a) of clause (1) of article 80 of the Constitution of India, read with clause (3) of that article, the President is pleased to nominate Shri Gulam Ali to the Council of States to fill the vacancy caused due to the retirement of one of the nominated member," reads the notification issued by the MHA, a copy of which is in possession of news agency—Kashmir News Observer (KNO).

Khatana is native of Bhatindi Jammu.

The move is seen as a major move by the BJP-led central government to reach out to Gujjar community of Jammu and Kashmir, which constitutes around 10 percent of the UT's population.

Talking to KNO, Khatana said that it is a moment of pride for the people of Jammu and Kashmir that Prime Minister Narendra Modi has chosen a native of Jammu & Kashmir for Rajya Sabha.

"It is for the first time that any person from Jammu and Kashmir has been nominated to Rajya Sabha," he said, adding that the Prime Minister has empowered the polit-

ically marginalized tribal community in J&K.

Twelve members are nominated to the Rajya Sabha by the President of India for a six-year term for their contributions towards arts, literature, sciences, and social service.

It is pertinent to mention that all four Rajya Sabha berths of J&K are vacant due to absence of electoral college for them.

The RS members are elected by members of the Legislative Assembly.

Khatana joined BJP in 2008 and has held key positions like state secretary and vice-president—(KNO)

Amid India-China disengagement, Army Chief witnesses 'Parvat Prahar'

HT News Network

Leh, Sep 10 (UNI) Amid disengagement process between Indian and Chinese troops in the Gogra-Hot Springs (PP-15) area, Army Chief Gen Manoj Pandey on Saturday visited Ladakh Sector and witnessed war-game 'Parvat Prahar'. Gen Pandey was briefed on operational preparedness by commanders on ground. Gen Pandey interacted with the officers and troops and complimented them for their steadfastness and professional standards, the Indian Army said.

The disengagement process between Indian and Chi-

nese troops in the Gogra-Hot Springs (PP-15) area started on Sept 8 at 0830 hrs will be completed by Sept 12 and the landforms will be restored to pre-stand-off period by both sides, the Ministry of External Affairs had said on Friday. The two sides have agreed to cease forward deployments

in this area in a phased, coordinated and verified manner, resulting in the return of the troops of both sides to their respective areas.

It has been agreed that all temporary structures and other allied infrastructure created in the area by both sides will be dismantled and mutually verified.

According to the agreement reached between the two countries, the LAC in this area will be strictly observed and respected by both sides, and that "there will be no unilateral change in status quo".

The decision to disengage in the PP-15 area has been

Youth who introduced football in Shopian village cracks NEET

HT News Network

Srinagar, Sep 10: A youth from Shopian who introduced football in his area qualified NEET UG-2022 in the very first attempt with flying colours.

As per news agency—Kashmir News Observer, Suhaib Ayoub Bhat son of Mohamammad Ayoub Bhat of Pargochi area of South Kashmir's Shopian has secured 659 points in NEET UG-2022.

Suhaib told KNO that he had divided his time in such

a way that he was able to give time to studies, sports, helping family and other things. "It is not necessary to be a bookworm to qualify for the exam but studying for a few hours on a daily basis is must to qualify any prestigious exam," he said. "I worked hard and also gave time to playing football and was going to other villages to learn and play football," he said, adding, presently there are dozens of youth in his village for whom playing football is a

passion but it was possible only due to my efforts. He gave credit of his success to the Almighty, parents and teachers saying shortcuts don't work but hard work matters.

"Becoming a doctor was my dream which has come true," he added—He gave credit of his success to the Almighty, parents and teachers saying shortcuts don't work but hard work matters. "Becoming a doctor was my dream which has come true," he added—

612 Beneficiaries of 133 schemes extended benefits by various departments

Div Com Kashmir instructs Officers to register maximum number of people, provide on spot benefits

SRINAGAR, SEPTEMBER 10: A mega Registration camp of beneficiaries was organised by Divisional Administration today at TRC to extend benefits of Centrally and Union Territory sponsored schemes to the general public.

Over six hundred beneficiaries under 133 schemes were extended benefits while hundreds of people were given awareness about the various profitable schemes and assistances.

The departments that took part in the awareness cum registration camp included Urban Local Bodies, Rural Development Department, Horticulture, Agriculture, Fisheries, Animal Husbandry, Sheep Husbandry, Rural Sanitation, Housing Board, Social Welfare, School Education, Rural Sanitation etc.

The departments shared information regarding

facilities, subsidies and assistances provided to the eligible under various schemes which include machinery, capital, finances etc.

Divisional Commissioner Kashmir, Pandurang K Pole during his visit inspected the processes of registration at the stalls establishment by respective departments.

On the occasion, he asked officers to register maximum number of people and complete the process of extending benefits on the spot.

While interacting with the public who had come from various districts to avail the opportunity provided by the departments, Div Com asked them to register for different schemes which is suited to their eligibility to get the benefits.

Necessary forms for schemes were also distributed to the people who thronged to the camp and shall be collected back on September 17 by the respective departments at TRC. The departments that took part in the

awareness cum registration camp included Urban Local Bodies, Rural Development Department, Horticulture, Agriculture, Fisheries, Animal Husbandry, Sheep Husbandry, Rural Sanitation, Housing Board, Social Welfare, School Education, Rural Sanitation etc.

The departments shared information regarding facilities, subsidies and assistances provided to the eligible under various schemes which include machinery, capital, finances etc.

DC Kulgam visits D. K. Marg, lays foundation stone of BDO Office

FAROOQ SOFI

KULGAM, SEPTEMBER 10: The Deputy Commissioner (DC) Kulgam, Dr. Bilal-Mohi-Ud-Din Bhat today visited far-off area D. K. Marg area of the district and laid foundation stone of Block Development Office (BDO) for D.K. Marg block.

It was informed that the BDO Office will come up with an estimated cost of Rs. 33 lac and the executing agency for this work project is Rural Development Department. Present on the occasion were ACD, Mohammad Imran Khan; SDM-Noorabad, Bashir Ul Hassan; ACR, Mir Imtiyaz-ul-Aziz; Executive Engineer REW, Kaisar Amin and other officers.

The DC instructed the officers of the executing agency to work in double shifts on the work project to ensure completion of this BDO Office building before December 2022.

Later, the DC presided over a grievances redressal camp which was attended by people from D.K.Marg, Nagam, Boh, Ringeth, Chimer, Bahadijahalan, Gulzarabad and other areas.

People from all these areas apprised the DC about their issues and grievances besides the developmental requirements of their areas.

PRI members also participated in the camp and flagged-off issues and put forth their demands. All the issues and grievances were listened to patiently by the DC and scores of the issues were redressed on spot.

Speaking on the occasion, the DC complimented the PRI members for their proactive role and efforts for development and progress of their areas.

The DC also added that Administration is focused to make the villages clean.

People were also urged to be proactive regarding war against drugs to eliminate the menace from the district.

DC Ganderbal presides over Qamaria day on eve of Urs Hazrat amar-ud-Din Bukhari

GANDERBAL, SEPTEMBER 10: The Deputy Commissioner (DC) Ganderbal, Shyambir and SSP Ganderbal, Nikhil Borkar today jointly presided over the Qamaria Day being celebrated on eve of Urs Hazrat Qamar-ud-Din Bukhari at Ganderbal.Qamaria Day was organized by Qamria Model Higher Secondary Educational Institute Saloori Ganderbal in the lawns of the school.The DC in his address appreciated the efforts of the school management in building a befitting institution in the district. He said that district Ganderbal has produced personalities with leadership qualities and complemented the students who acquired excellence in curricular and co-curricular activities. He also assured full support to the school management in its endeavors.Principal, Nazir Ahmad Kanth while paying rich tribute to Sufi Saint Hazrat Qamar-ud-Din Bukhari (R.A) gave a brief about the functioning of the school and said that the school is a community based school which is run by the Qamria Wakaf Trust.

Chairman Qamria Muslim Wakaf Trust, Sheikh Ghulam Rasool gave a detailed background of the school and said that initially Islamic teaching was only taught in the school and later formal education was also introduced.

Later, Annual award ceremony was also held in which students of the school who excelled in academics and co-curricular activities were felicitated. School Tarana was also presented by the school children.

DDC Anantnag reviews progress of RDD

ANANTNAG, SEPTEMBER 10: The District Development Commissioner (DDC), Anantnag, Dr. Basharat Qayoom today directed the officers of Rural Development Department (RDD) to put extra efforts for completion of all ongoing works within the stipulated time frame.

The DDC was addressing a meeting of officers of RDD here, convened to review the pace/ progress of works by the Rural Development Department.uring the meeting, the DDC took scheme wise detailed reviews and received feedback and updated status of development works from the officers.

Later, this Shanti march reached to Kulgam and CEO informed that Peace march will continue tomorrow and it will start from L/K Nazir Ahmad Wani Boys Higher Secondary School Kulgam at 10:00am sharp.

HYDERABAD, SEPTEMBER 10: Secretary Mining, Amit Sharma, while representing Jammu and Kashmir in two day National Mines Ministers' conference held at Hyderabad, shared recent initiatives taken up by the UT administration towards ensuring added transparency and raising productivity in the Coal and Mining sectors. The conference was presided over by Union Minister of Parliamentary Affairs, Coal & Mines, Pralhad Joshi, who shared his vision of taking nation forward in these key high potential sectors.

Amit Sharma, during his address, mentioned about several key initiatives undertaken in J&K recently which inter alia included launch of G2B2C portal for provisioning of e-Market-

place to sellers and buyers

check posts and upcoming

operations which produce

of mining materials and introduction of QR-code based e-Challans to ensure transparency in working of department, initiation of Mining Surveillance System, hi-tech mineral

project of using drone and PTZ cameras for random checking of illegal mining at vulnerable points.

Amit also requested Coal and Mining Ministries to support Kalakote mining

top quality Anthracite coal (usually found in Australia) for revamping the coal mining operations there. He further urged upon them to help in exploitation of Padder Sap-

phire (Neelam) reserves and huge underlying Lithium reserves (used for electric batteries) which have been discovered off-late in Reasi and Rajouri belts of the Union Territory by Geological Survey of India (GSI).

Union Minister assured complete support to the UT in further streamlining these vital sectors having vast potential in the region.

Meanwhile, Union Coal Secretary, Anil Kumar Jain and Director General, GSI, Dr S.Raju also expressed commitment for total support on issues flagged by Mining Secretary J&K while mentioning that they shall conduct visits soon here for addressing most of these issues instantaneously. Later, Amit Sharma ex-

pressed gratitude towards Union Government team for their overwhelming response to issues regarding coal and mines sectors of J&K. He invited them to J&K for carrying forward the ongoing progressive reforms in the Union Territory. Union Minister assured complete support to the UT in further streamlining these vital sectors having vast potential in the region.

Meanwhile, Union Coal Secretary, Anil Kumar Jain and Director General, GSI, Dr S.Raju also expressed commitment for total support on issues flagged by Mining Secretary J&K while mentioning that they shall conduct visits soon here for addressing most of these issues instantaneously.

Law students visit different educational institutes in Ganderbal

Ganderbal,CNS,10-Sept;An initiative by District Legal Services Authority Ganderbal for the benefit of Law students from School of Legal Studies, Central University of Kashmir, a schedule of activities organized by DLSA Ganderbal under the guidance of Mrs. Tabasum, Secretary District Legal Services Authority Ganderbal. Law students made visit to different educational institutes of District Ganderbal and children's home Kangan where awareness programmes were conducted by law students on different topics.

In the guided tour, students were briefed on the functioning and procedures of the Children's home kangan.

The programme at the Government Girls Higher Secondary School Nunner was held on the topic "NALSA Scheme (A scheme for legal services to disaster victims through legal services authorities)" in which Law students made participants aware about the scheme. The

objective of the program was to provide information regarding role of Legal services authorities to disaster victims. They highlighted that the Legal services authorities have to Ensure immediate help by Governmental and Non-Governmental Agencies to the victims Coordinating activities of different departments of the Government and the NGOs for bringing immediate relief. Supervising the distribution of relief materials, construction of temporary shelter or transporting the victims to a safer place, reunion of families, health care and sanitation of the victims and preventing the spread of epidemics, needs of women and children. Ensuring the availability of food, medicine and drinking water, etc.

The programme at the Government Boys Higher Secondary School Manigam was held on the topic "NALSA (Legal Services to Senior Citizens) Scheme,2016" in which Law students made participants aware about the scheme.

The objective of the program was to provide information regarding different legislations, NALSA (services to senior citizens) scheme 2016 and different government schemes pertaining to senior citizens. Law students informed the participants about different legislations as enacted by the legislature and various schemes formulated by the government from time to time keeping in view of the interests of senior citizens. The program was followed by a question-and-answer session.

The programme at the Government Boys Higher Secondary School Chattergul was held on the topic "NALSA (Legal Services to the Mentally ill and disabled persons) Scheme, 2015" in which Law students made participants aware about the scheme. Law students pointed out that persons with mental disabilities are also entitled to all human rights. It is the prime concern of the legal services authorities to, protect and ensure full and equal

enjoyment of human rights and fundamental freedoms by the persons with disabilities.

The programme at the Government Boys Higher Secondary School Kangan was held on the topic "Solid Waste Management & Environmental Laws" in which Law students made participants aware about Solid Waste Management & Environmental Laws. The programme was aimed to educate the students of different educational institutes about the significance of cleanliness and hygiene for sustainable development of the society besides ensuring safety and protection of children in educational institutions. Emphasis was made upon complete enforcement of ban on use of polythene bags and proper disposal of both degradable and non-biodegradable waste. They stressed upon the need of strict adherence to all rules and laws of solid waste management for creating a healthy environment. Importance of proper management of solid waste for a healthy.

Atal Dullo Impresses for sustainable Commercial Agriculture in J&K in ISGPB Conference in SKUAST-K.

DR.AB QAYOOM

Srinagar,Sep,10:Shri Atal Dullo additional chief secretary J&K inaugurated a three day national symposium on "Renaissance of Hill Agriculture Through Advanced Genetics & Crop Breeding under Scenario of Climate Change" at SKUAST-K. The conference is being jointly organised by SKUAST-Kashmir and Indian Society of genetics & Plant Breeding. During his Inaugural address Atal Dullo impressed upon the scientists and policy makers to work towards promoting sustainable commercial agriculture in J&K with focus on niche crops and harnessing the biodiversity. He informed the house that J&K Govt. is already working on developing modalities for such transformation and is developing appropriate R&D base and policy support for transforming J&K in a model sustainable economy in country. Prof Nazir A Ganai, Vice Chancellor

in his address echoed the concerns over obvious climate change implications in an ecologically fragile ecosystem in J&K and stressed upon taking climate research towards building resilience in the farming systems by developing climate resilient varieties and breeds as well as develop matching technology and management support for improving climate resilience of farming systems in the state. He stressed upon much needed efforts towards crop and system

diversification, crop biodiversity conservation and harness niche advantage. Prof Ganai informed the house that SKUAST-K and J&K Govt, are working proactively towards the new structure of policy planning with active support from SKUAST-K in shaping up new farm policy of state. The experts also spoke on the occasion and stressed need for collaborative research with national institutions for leveraging research output for farmers benefits.

Advisor Bhatnagar condoles sad demise of Dr. Ritu Gupta

SRINAGAR, SEPTEMBER 10: Advisor to Lieutenant Governor, Rajeev Rai Bhatnagar has condoled the sad demise of Dr. Ritu Gupta, Professor of Physiology at Government Medical College (GMC) Jammu. In his condolence message, Advisor Bhatnagar said that Dr. Ritu was an excellent teacher and mentor who always showed great empathy towards her students and others. The Advisor further said that due to her empathetic nature, Dr. Ritu had pledged to donate her eyes for any needy patient and her eyes were successfully transplanted to two needy patients on the day of her death. The Advisor also said that the remarkable achievements of Dr. Ritu spoke itself of her glorious career and her death is a great loss to medical fraternity as a whole which will be very difficult to fill again. Advisor Bhatnagar also expressed deep sympathies with her family and prayed for peace to the departed soul.

Scores of political activists join Sheikh Mohammad Imran at Konakhan-Khanyar

Srinagar, September 10 (KNS): Scores of political activists hailing from Konakhan and Nowpora area of Khanyar Constituency on Friday joined Khadim-e-Qaum Sheikh Mohammad Imran where various Mohalla Committees were also framed followed up by a turban tying ceremony to the newly appointed Mohalla Committee heads.

Khawaja Mohammad Yaseen, Parvez Ahmad Chachoo, Tariq Ahmad, Abdul Majid Chachoo, Mushtaq Ahmad Wani, Arooj Ahmad Bagwan, Mohammad Saleem Kak, Mohammad Shafi Dar and Mohammad Shafi Chopan were also present on this occasion.

Speaking on the occasion, Khawaja Mohammad Yaseen said the people of Khanyar Constituency have been viciously neglected by the previous governments and criminally deprived of the essential infrastructural facilities.

"If the former representatives had been sincere towards the welfare of people, I have no doubt that youth from these areas wouldn't have to yearn for dignified jobs. The condition of roads, drainage and wooden bridges is appallingly pathetic that continuously haunts the locals living in these areas who have been always emotionally blackmailed by these so-called 'stalwart leaders' for their ulterior motives," he said.

Khawaja Yaseen also deliberated over enormous irregularities & misappropriations with regards to the implementation of ICDS Scheme in Khanyar Constituency where the Anganwadi centers have been strategically allocated to the workers of a specific political party tainting the very purpose of this central sponsored scheme.

Commissioner Secretary visits Bandipora, reviews revenue matters

Emphasizes intensive awareness on Apki Zameen Apki Nigraani;enhanced anti encroachment drives

BANDIPORA, SEPTEMBER 10: Commissioner Secretary, Revenue, Vijay Kumar Bidhuri, on Saturday visited Bandipora district and took stock of progress on various revenue services in the district.

Commissioner Secretary took a detailed review of recent initiatives including Aapki Zameen Aapki Nigraani" Land Records Information System, Survey of Villages Abadi and Mapping with Improvised Technology in Village Areas (SVAMITVA) besides digitalization of land records.

Farooq Rather

Srinagar, 09-Sep:Poshan project qazigund kulgam organized a rally under Nasha mukt bharat abhiyan in ICDS zone Batengu kund area.

On the directions of CDO poshan project qazigund Parveena Akhter, Supervisor Sharifa Akhter, urged upon concerned departments and educational institutions to aware students regarding ill effects of drugs in order to eradicate drug menace from society. She urged the participants to take

message of "fight against drug" to every corner of the district. She thanked the organiser and the district administration for organising the said programme. The rally passed through various areas while highlighting the effect of drugs and its prevention. Anganwadi workers and helpers of 21 Anganwadi centers, Pregnant women , lactating mothers, Children of Government primary school Batengu kund and locals of several area participated.

Apni Party submits memorandums to respective DMs in all 10 districts of the Valley

Srinagar,CNS,10-Sept: Apni Party's District Presidents across the Valley Saturday submitted memorandums —seeking restoration of J&K's statehood; release of detainees who have been kept behind bars in the name of 'precautionary measure'; swift recruitments; simple verification process for the job aspirants; and so on — to their respective District Magistrates (DMs) in all 10 districts of the Valley.

According to a press statement issued to CNS, Apni Party District President Anantanag Abdul Rahim Rather, District President Baramullah Yawar Dilawar Mir, District President Bandipora Sha-faat Kazmi, District President Budgam Muntazir Mohiuddin, District President Ganderbal Javid Ahmad Mir, District President Kupwara Raja Manzoor, District President Kulgam Abdul Majeed Padder, District President Pulwama Ghulam Mohammad, District President Srinagar Noor Mohammad Sheikh, Party's Youth Wing General Secretary, and Vice Chairman DDC Shopian Irfan Manhas along with their teams met with the respective District Magistrates (DMs) and submitted the memorandums to the government through these officials (DMs).

The memorandum contained demands including the key demand of restoration of statehood to Jammu and Kashmir. The

rest of the demands include the release of those prisoners who have been kept in jail in the name of 'precautionary measure', swift recruitments, a simple verification process for the job aspirants or those who have just got appointed in various departments and are now waiting for the CID clarifications. "The move is a supplementary activity of the party's recent initiative in which the party President Syed Mohammad Altaf Bukhari led a top party delegation to Raj Bhavan in Srinagar and handed over a memorandum, demanding restoration of statehood to Jammu and Kashmir, to Lieutenant Governor Manoj Sinha. "The statement reads. "As the party has already started a movement for J&K's statehood, all the district level leaders of the party today emphasized the demand for statehood vigorously by submitting memorandums to the government through District Magistrates (DMs) of every district across the Valley." The statement adds."The purpose of this exercise is to emphasize the fact that people of Jammu and Kashmir desperately want their identity, in terms of statehood to J&K, returned. Since Apni Party has been in touch with the people through its ongoing public outreach program across J&K for the past two years, it can confirm the fact that the J & K people.

Justice Magrey visits Central Jail Srinagar, reviews facilities for inmates

Says 'incarceration has many consequences on family, dependents of alleged offender'

SRINAGAR, SEPTEMBER 10: Executive Chairman, J&K Legal Services Authority, Justice Ali Mohammad Magrey, accompanied by Additional Chief Secretary Home, R K Goel and other senior officers of government and Legal Services Institutions today visited Central Jail Srinagar to take stock of condition of Central Jail Srinagar including facilities for inmates.

On the occasion, Justice Magrey was presented guard of honour by the CRPF.

Afterwards, DGP Prisons, H K Lohia, accompanied Justice Magrey to male and female blocks of the inmates.

Justice Magrey had interaction with the inmates there regarding the facilities being made available to

them. He directed the legal services officers to ensure that no UTP should remain unrepresented in the court.

Later, Justice Magrey visited the vocational centres including barber shop, bakery, tailoring centre, carpentry, kitchen, hospital, VC facility, e-mulakatcentre, Gymnasium and Drug De-addiction Centre.

Justice Magrey appreciated the efforts made by the government in general and the department of Prisons in particular for maintaining high standards of living in jail and providing all the basic facilities like hygienic food, medical facilities and skill training to the inmates.

Justice Magrey, while addressing the inmates, stated that Access to Justice for all includes justice to all irrespective of which section of the

society they belong to. He said that

the criminal justice system speaks about two sets of people, that is,

the victim(s) and the offender(s).

But there is another section which remains unacknowledged by the

system and is looked down upon by the society, that is, the family/dependents of the offenders. The fact of incarceration of the offender has many consequences on the family/dependents of the offender.

He said in many cases, the convict/under trial prisoner (UTP) is the sole bread earner of the family. Due to his absence, the family gets trapped in the vicious circle of poverty and other economic, socio-legal or psychological issues, he added. This itself constitutes barrier to access to justice for the family members. Therefore, it is the duty of J&K government to ensure the well being of dependents of the inmates, so that the goal of access to justice for all is achieved. Additional Chief Secretary, Home, while speaking on the

occasion, ensured that few issues raised by the inmates and officers regarding court hearings through virtual mode shall be addressed expeditiously. Later, a mesmerizing cultural programme was presented by a group of jail inmates comprising Umer Noor, Waseem Feroz, Irshad & group. The cultural event was impressively compared by Sadat Maqsood, an inmate. The other officers present on the occasion included M. K. Sharma, Member Secretary, J&K LSA, Jawad Ahmed, PDJ& Chairman DLSA Srinagar, Anoop Sharma, CPC, High Court, Noor Mohammad, Secretary, DLSA Srinagar, Abdul Bari, Joint Registrar (Judicial), Daljit Singh, Superintendent, Central Jail Srinagar and Sabha Shawl, Staff Officer to DGP Prisons.

Addressing the students on the occasion, the Deputy Commissioner highlighted the role of Martyrs in building

of nation. He urged upon the students to make ef-

ily members of the martyr were delighted and

forts for their overall personality development. The Deputy Commissioner also interacted with the family members of the Martyr and expressed sympathies with them. He assured all possible support to the family from the District Administration.

Meanwhile, the fam-

expressed their gratitude towards the Government and District Administration for naming the school after the Martyr, Abdul Hameed Chara.

Later, the Deputy Commissioner visited Government High School Magam in Handwara sub division and took part in the Anti Drug pro-

gramme in the school.

Speaking at the occasion, the Deputy Commissioner stressed upon the students to focus on their personality and career development which will assure them a prosperous life and become good citizens. He directed them to get inspiration from young officers and achievers who have made name and fame in the country in different fields.

Regarding drugs, the Deputy Commissioners said that the drugs ruin the career and life of a person and urged the students to keep themselves away from social evils like drugs.

He said that this is the land of knowledge and gave examples of various IAS officers, Doctors, Engineers and young achievers from the district who inspire the youth.

Toyota Kirloskar Motor Announces Prices for The Urban Cruiser Hyryder

Srinagar, Sep 10, KNT: Toyota Kirloskar Motor (TKM), today initiated the announcement of the prices of its brand-new Toyota Urban Cruiser Hyryder. To be announced in a phased manner, the top four grades of the latest offering from Toyota are competitively priced between Rs. Over 15 to 19 lakhs.

The brand-new SUV was unveiled in early July and the bookings were also announced at the same time. As one of Toyota's sustainable mobility offerings, the Urban Cruiser Hyryder inherits Toyota's

famed global SUV lineage with bold and sophisticated styling, along with advanced technology features making it a perfect choice for the customers.

Mr. Atul Sood, Associate Vice President, Sales, and Strategic Marketing, TKM, said, "We are truly humbled and honored to receive such an overwhelming response for the Urban Cruiser Hyryder and we are grateful that our customers have put their faith & trust in brand Toyota. The prices for the remaining grades will be announced shortly. The first of its kind

self-charging strong hybrid electric vehicle in the B SUV segment, the Urban Cruiser Hyryder is aimed at delivering exemplary performance, best-in-class fuel efficiency, quick acceleration, and connected car features and is designed for a greener future," he said.

Available in two powertrains- Self-charging Strong Hybrid Electric powertrain & Neo Drive, the Self-Charging Strong Hybrid Electric Vehicle is powered by an e-drive transmission and runs 40% of the distance and 60% of the time on elec-

tric power, with engine shut-off, offering a fuel efficiency of 27.97km/l. Additionally, the Neo Drive comes with a 1.5-liter K-series. The brand-new SUV was unveiled in early July and the bookings were also announced at the same time. As one of Toyota's sustainable mobility offerings, the Urban Cruiser Hyryder inherits Toyota's famed global SUV lineage with bold and sophisticated styling, along with advanced technology features making it a perfect choice for the customers.

Dulloo reviews progress of CSS implemented by LDD across J&K

SRINAGAR, SEPTEMBER 10: Additional Chief Secretary (ACS), Agriculture Production Department (APD), Atal Dulloo chaired a meeting to review the progress on several Central Sponsored Schemes (CSS) being implemented by Livestock Development Board (LDB) of Jammu and Kashmir at Civil Secretariat here.

During the meeting, Atal Dulloo took district-wise review of schemes implemented by LDB and the progress achieved on implementation of these schemes. He impressed upon the officers to work with full commitment and dedication so that the desired results can be obtained on ground.

During the meeting, the ACS also discussed ways to improve milk production rate across Jammu & Kashmir. He asked the officers that field staff needs to be trained so that they can contribute to the objective of amplifying milk production here.

The ACS reviewed progress on uploading data on the Information Network for Animal Productivity and Health (INAPH) online platform. He asked the officers to expedite the process of uploading data on the portal.

During the meeting, Atal Dulloo also took stock of setting up National Animal Disease Control Programme (NADCP) call centres in Jammu and dictated that the same be set up throughout J&K as early as possible.

The meeting among others was attended by Secretary in APD, Director Animal Husbandry Jammu/Kashmir, Special Secretary, APD, Director Finance, APD, CEO, LDB, Jammu/Kashmir and other concerned officials of the department both in person and through video conferencing. Additional Chief Secretary (ACS), Agriculture Production Department (APD), Atal Dulloo chaired a meeting to review the progress on several Central Sponsored Schemes (CSS) being implemented by Livestock Development Board (LDB) of Jammu and Kashmir at Civil Secretariat here. During the meeting, Atal Dulloo took district-wise review of schemes implemented by LDB and the progress achieved on implementation of these schemes. He impressed upon the officers to work with full commitment and dedication so that the desired results can be obtained on ground.

DDC Baramulla reviews developmental works of RDD, PDD under ADP

Scale up efforts to get timely results: Dr Sehrish to Officers

BARAMULLA, SEPTEMBER 10: The District Development Commissioner (DDC) Baramulla, Dr Syed Sehrish Asgar today chaired a meeting of Rural Development Department (RDD) and Power Development Department (PDD) authorities where she took a holistic and sector wise review of all developmental works taken under the Area Development Plan (ADP). On the occasion, the DDC took a comprehensive and scheme wise review of all the works wherein the concerned officers briefed the chair about the current physical and financial position.

During the meeting, it was given out that, under PRIs/ BDCs/DDCs grants, 862 works with an cost of Rs. 40 crore have been allotted, out of which 754 works have been tendered while as 480 works has been taken up in

which 103 works have been completed.

The DDC also took a detailed review about the pace and position of houses being constructed under the centrally sponsored Pradhan Mantri Awas Yojana (PMAY) during which she was informed that 1112 cases have been approved under PMAY(G)

for financial assistance, out of which 422 beneficiaries have received their 2nd installment of their approval financial assistance.

After taking a thorough review, the DDC directed the Officers to scale up efforts and put extra energy for completing all ongoing work well within the stipulated time frame. She also set a fixed timeline for completion of some of the works and applauded some of the officers who had achieved their targets within the set time. The DDC also directed to undertake all current non-feasible works in the next financial year developmental plan.

Meeting was attended by Joint Director Planning, M Yousuf Rather; Assistant Commissioner Development, Yaar Ali Khan; Assistant Commissioner Panchayat.

DDC Chairperson, DC inaugurate Blood Donation Camp on eve of Urs Hazrat Qamar-ud-Din Bukhari at Ganderbal

GANDERBAL, SEPTEMBER 10: The District Development Council (DDC) Chairperson Ganderbal, Nuzhat Ishfaq; Deputy Commissioner (DC) Ganderbal, Shyambir along with SSP Ganderbal Nikhil Borkar today inaugurated Blood Donation Camp as part of Urs Mubarak of Hazrat Qamar-ud-Din Bukhari (R.A), here.

The camp was organized by Sheikh Ishfaq Jabbar, Ex MLA Ganderbal and Founder Shaheed Sheikh Abdul Jabbar Foundation in the memory of Shaheed Sheikh Abdul

Jabbar (EX MLA Ganderbal) camp and other volunteers

and Sheikh Gh Mohd (Ex Defence Director).

To motivate the youth towards blood donation, both Sheikh Ishfaq Jabbar and Khalid Jahangir donated blood during their visit to the

also donated blood.

Emphasizing the relevance of such camps, Jabbar said, "Blood donation camps have been a regular feature of Shaheed Sheikh Jabbar Foundation but due to the pandemic

we were not able to conduct them for the last 2 years".

He said they are planning to organize at least one blood donation camp every year as blood is a vital resource that can only be donated and not manufactured, adding that the path shown by the Shaheed Sheikh Abdul Jabbar is reaping fruits today.

Ishfaq also expressed gratitude to the District Administration and youth of Shaheed Sheikh Jabbar Foundation for making this blood donation camp a success.

SUNDAY SPECIAL

Heritage tree of Kashmir, 'BOUIN' at the verge of extinction

JAHANGIR BUKHARI

The growing concern world over about the environment protection and saving mother earth from further degradation gaining momentum day in and day out. However in our part of the world different parameters are being adopted. Majority of the water bodies across rural as well as urban Kashmir have dried up. Great sain of Kashmir Nund RESHI (RA) had predicted and given lessons on environment long back when he said...

ANN POSHE TELI
YALI WAN POSHE...

'BOUIN', the tree which was historically introduced to Kashmir by the Islamic missionaries, which later became an identity of Kashmir has turned out to be the victim to unplanned and so called developmental activities. With every passing year 'BOUINS'- The Chinar trees, are becoming a rare sight. Thanks to the unplanned construction activities and absence of any future planning to save this heritage tree. Gracing the paths and gardens of exotic Kashmir, over the years the Chinar is now at the verge of depletion because of human apathy and the administrations indifference.

As spring draws into Kashmir and plantation season begins. Administration will soon be seen holding ceremonial plantation drives across Kashmir. However these Chinars, once abundant, are increasingly becoming a rare sight.

Gods of nature have always taken mercy on Kashmir. If there is a heat wave there is rain immediately after. If there is drought there has been snow too, but despite this mercy Kashmir continues to suffer. That is because the cruel human hands continue to destroy what nature has given in abundance. Cruelty with nature and human interference galore is eating up the vitals of the paradise. Take for example the environment; immense damage is done to it undermining the nature's benevolence. The natural environment is getting decayed due to rapacious interference by human beings. All its facets like rivers, jungles, pastures, gardens are on the verge of destruction. Nothing has been spared, not even its unique feature, the majestic Chinar tree. Due to the apathy of administration and lack of self-discipline of the people, this 'king of trees' is under the axe of smugglers and their mentors among the officialdom. Visit any corner of the valley, including the protected Naseem Bagh on the shores of Dal Lake, one gets the impression that the gracious chinar tree, which has added to the picturesque beauty of Kashmir for centuries is close to extinction. Every year, the number of Chinars is decreasing. The Chinar trees, which flourished everywhere in the valley, is increasingly becoming a rare sight even though there is a lot of clamour about the rule of law, economic prosperity and environmental awareness. The chinar was considered to be a wealth, because it contributed not only to the beauty of Kashmir but also to its resources. Chinar wood

is as good for furniture, as for making 'papier machie' items like wall hangings. It has also been one of the main sources of firewood for the rural lot whose fire-pots (Kangris) are filled by charcoal of red chinar leaves in winter. Gone are the days when one would come across gigantic chinar trees. These have been and are still being cut down ruthlessly. Revenue,

forest or police agencies either do nothing or connive actively. The laws are flouted. It is unfortunate that there is no government agency, which would use government land, parks or gardens or even highways for the conservation of this majestic tree. Both the administration as well as citizens seem to be totally apathetic to this great loss. People shun its growth to save land. It is also normally planted in kitchen gardens for ornamental purposes. Chinar leaves engraved on Kashmiri traditional pots like 'Samavar' (tea pot) etc and other decorative items are used to adorn drawing rooms. The chinar tree is grown in Greece, Macedonia, Armenia and Northern Persia, besides Kashmir and western Himalayan region. Chinar or oriental tree (botanical name - Platanus orientalis) popularly known as 'bouin' in Kashmir is a large, graceful deciduous tree, which is closely associated with the culture and folklore of Kashmir. It is considered to be the manifestation of nature's bounty that the valley is blessed with. There are frequent references to the grandeur of chinar in Kashmiri literature. The famous mystic poetess Lal Ded, also known as Lal Ishwari (1320-1390 AD) made the reference to this tree in an epigram containing: "Virtuous and loving wife to the cool and refreshing shade of bouin (chinar) on a hot summer day." In the Akbarnama written by Abul Fazal, it is mentioned, "The emperor took 34 persons inside the hollow trunk of an aged chinar tree." Similarly, emperor Jahangir, in his memoirs has made mention of a huge plain tree, in the hollow of which he and his seven companions could be comfortably accommodated. These and other references were used as a source to try and establish the date when the Chinar was introduced in Kashmir, which usually has been ascribed to the Mughal emperor Jahangir (1605-1627 AD) and Shah Jahan (1627-1658 AD) who brought it from central Asia. But history was rewritten some years ago when an investigation on charcoal remains from archaeological site at Simthen in South Kashmir revealed that this tree was in existence centuries before. The history of the tree has been traced back to 500 AD and the importance of the majestic tree has increased in archaeological context. But no one has awakened to the danger to its actual existence, neither the people nor the government.

RAHUL GANDHI HAS TO BE CAREFUL IN MEETING RIGHT PEOPLE DURING YATRA

SUSHIL KUTTY

The 'Bharat Jodo Yatra' of the Congress was in the "land of Kamaraj" when Rahul Gandhi met two people, a teenage girl of about "12/14", and a Catholic "father" of no mean controversies. If the girl's curiosity was a welcome diversion for Rahul Gandhi, the Congress leader's curiosity was fodder for the Catholic father to brew hate.

The girl asked Rahul "what is Bharat Jodo Yatra?" Rahul countered with "What is Bharat?" The girl answered: "Bharat is all the people living in harmony" and Rahul's next question: "Are all the people of Bharat living in harmony?"

That in one question was Rahul Gandhi's rendition of "What is Bharat Jodo Yatra?" The teenager went home satisfied, but the many journalists at the presser chose not to press Rahul Gandhi to elaborate. Instead they pestered the Gandhi scion with questions about the Congress presidency and when would he take on the mantle?

Rahul Gandhi told them to give it a rest and that he has made up his mind, and that he was "very clear in his head", but that everybody would be made aware of what it was when the "elections are held"; that, for now, he was too busy with the 'Bharat Jodo Yatra', which was being "not led by me" as "I'm only a participant."

Spoken like a true Gandhi. But, who was fooling whom? It is easier to believe the weatherman and tomorrow's rain than a Nehru-Gandhi family member and

the Congress president's post. The sycophancy surrounding Rahul Gandhi wouldn't let anybody else dare take the post. On the road with Rahul Gandhi, it's clear that this is 'Bharat Jodo' for Rahul Gandhi and nobody else.

That said, there are spoilers everywhere, and there's somebody in the Kanyakumari to Kashmir yatra who is giving Rahul Gandhi incorrect advice. Otherwise, Father George Ponnaiah of Kanyakumari wouldn't have been a "stop" en route. Rahul Gandhi didn't know George Ponnaiah is a priest who likes taunting Hindus. Also, Rahul

made the mistake of asking Father Ponnaiah: "Jesus Christ is a form of God, is that right?"

With that sort of wide opening, Father Ponnaiah wouldn't have missed the woods for the tree. "Jesus Christ is the real God, not like Shakti," the Tamil priest told Rahul Gandhi in Tamil, a video clip of which is now going viral. "God reveals him(self) as a man, a real person...not like Shakti...so we see a human person."

For the BJP, this couldn't be more welcome. The 'Bharat Jodo Yatra' has started with a glaring disadvantage for the Congress, and

Rahul Gandhi has himself contributed to the "disharmony" in Bharat that he had warned the teenage girl about. Also, the BJP may deny as much as it can, but the 'Bharat' of today is not one where all the people are living in harmony.

For as long as people like Father George Ponnaiah are allowed a free rein, the 'Bharat' that was spelled out by Rahul Gandhi to the teenage girl would elude India. Rahul Gandhi shouldn't allow himself to be led by the nose by Congressmen who haven't been vetted by trusted Congress leaders. There are any number of people in the Congress,

and out of the Congress, ready and willing, waiting, to throw a spanner in Rahul Gandhi's works.

For the BJP, Father George Ponnaiah is just what the doctor ordered. Adept at the kind of games Father Ponnaiah played, the BJP will match provocative statements with equally provocative statements, dogging the 'Bharat Jodo Yatra' all the way from Kanyakumari to Kashmir. And Rahul Gandhi instead of delivering the message of unifying Bharat would be left defending his own compendium of faux pas.

Father Ponnaiah was arrested in 2021 for making a hate speech in Madurai, targeting among others Prime Minister Narendra Modi and Union Home Minister Amit Shah. There is also groundswell of feeling that Tamil Nadu has become a haven for Christian missionaries out to "harvest pagan souls" by converting them to Christianity. Once before, Ponnaiah was arrested for his remark "I wear shoes because the impurities of Bharat Mata should not contaminate us."

Rahul Gandhi's 150-day 3676 km 'Bharat Jodo Yatra' has only just begun and has a long way to go. A lot of young people, tens and thousands of them who will be voting for the first time in 2024, would be keenly following Rahul Gandhi on his quest to deliver what he preaches. The aspirational young people of India want a better life, and bagsful of opportunities. You cannot have bigots bog them in wasteful pastimes by sending the 'Bharat Jodo Yatra' on a fruitless errand.

INDIAN ECONOMY NEEDS FRESH PUSH BUT PEOPLE'S INTERESTS ARE SUPREME

HARIHAR SWARUP

The Indian economy was expected to collapse due to pandemic. But its recovery has been better than most countries. Appropriate counter-cyclical policy enabled this but it worked because reforms had reached a threshold of adequacy. In the recent past growth suffered because of an excessive focus on structural reforms while neglecting the smoothening of shocks. Current policy has responded to the latter. But talk of necessity of reforms is again in the air. So what reforms are required?

A major objective of international institutions such as the IMF-WB is to ensure advantages to other countries from India's growth, in particular to the main financiers who are the large capital exporting countries. It follows that they want to ensure freer markets and fewer restrictions on all types of capital flows. Much of this is in India's interest since we need more capital and better integrating with the world markets. But a democracy cannot ignore the concern of its own citizens. The IMF-WB holy

trinity of structural land, labour and other market openings reforms harms many domestic citizens and, beyond a point, runs into severe resistance that imposes large political costs.

Liberalization has reached a point of diminishing returns. Whatever is feasible in the above is surely in motion by now. Further organic reforms will take place as the states complete.

Improving the supply side has many other aspects. In choosing from the reform menu, the centre must be guided by feasible and pragmatism and ensure that benefits accrue to a majority.

The focus should be on leveraging the special circumstances that currently favour India. These include the impetus Covid-19 has given to digital aspect, where India has a compara-

tive advantage, the possibility of supply chain diversification away from China, moving into a net zero economy and harnessing green initiative as a source of investment and invocation. Attention should be given to developing skills and capabilities, improving employability, augmentation infrastructure, reducing logistics and other business costs through better

centre-state coordination, and enhancing the quality of governance and counter cyclical regulation with good incentive. Much can be done to improve data and privacy functioning of courts and police. Instead of wasting political capital on reforms that encounter large resistance and shock the system, reforms should enhance favourable trends.

Privatization of Banks is one of the reforms agenda. There is a recommendation to privatize most public sector banks, starting with those doing well. But the argument that BCBS are a drain on tax payers' money is based on the experience of the last decades. In the 2000s, they were doing better than private banks and withstood the global financial crisis better. NPAs rose because they were pushed into lending to infrastructure where there are inherent asset liability mismatches for commercial banks. Moreover, it was the first time that the lending was to private companies. Therefore, a full resolution had to wait the setting regulatory framework for bankruptcy. Improvements in PSB governance and risk based lending pro-

files have resulted in falling NPA ratios and strong capital adequacy even under the Pandemic shocks. Social schemes that were a drain on PSB resources are now largely financed through direct subsidies by the government.

Diversity in institutions and approaches makes for a more stable financial sector. PSBs are trusted by many savers. They have garnered Rs. 1.7 trillion in their Jan Dhan accounts, while private banks have hardly any. PSBs can leverage their advantages in low costs deposits through co-lending opportunities and partnerships. The economy has suffered very low credit growth through last decades and is ready for a turn around. Private banks alone could not increase credit adequately---when lending from PSBs had slowed. This is not the time to disrupt the recovery in credit growth. PSBs should be allowed to compete and raise resources on their own. Only those who can not do so, or have other serious weakness should be allowed exit through privatisation or merger route. The strong will prosper.

SUPREME COURT KEEPS ITS WORD FOR PROTECTING RIGHTS OF UNDERTRIALS

K RAVEENDRAN

The Supreme Court has kept its word in terms of protecting the rights of undertrials by granting bail to journalist Siddique Kappan, who has spent over two years in UP jails without trial in connection with the Hathras conspiracy case.

The decisive action comes within weeks of the apex court having warned the UP government as well as the Allahabad High Court for not taking prompt action to release undertrial prisoners languishing in jails for more than 10 years despite an earlier order from the court.

A two-member bench of Justices Sanjay Kishan Kaul and M M Sundresh had declared that the Supreme Court was ready to 'take the burden' on itself and grant the affected people relief if the government and the courts did not do justice to them. That these were not just hollow words and grandstanding was proved beyond any doubt when earlier this week when a bench headed by Chief Justice U U Lalit and Justice S Ravindra Bhat passed an order allowing the appeal filed by Kappan denying him bail. Kerala-based Kappan, who has now spent

almost two years behind bars, was arrested, along with other accused by the UP police in October 2020 while proceeding to report the Hathras rape-murder crime. While initially he was arrested under the apprehension of causing a breach of peace, subsequently, he was booked under the UAPA alleging that he and his co-passengers were trying to incite communal riots and disrupt social harmony in the wake of the Hathras gangrape-murder case.

While Kappan claimed that he had gone there to report on the situation after the gangrape and the trouble over it, various UP courts, including the Allahabad High Court, had rejected his plea saying he had 'no work'

there in Hathras.

The Chief Justice-led bench, while not going into the merit of the case, declared that the denial of bail was unwarranted. The judges said they were not impressed with the evidences cited by the prosecution for denial of bail by asking whether possession of 'provocative' literature by the accused meant that he was practising whatever was contained there. As long as that cannot be proved, there is no ground to continue to hold him in prison without bail, the court ordered.

Undertrials languishing in jails has been a bane of the country's judicial system, with consecutive chief justices raising alarms over the issue. According to data compiled by the National Crime Records Bureau, four-fifths of all prisoners in the country are undertrials, which amount to a gross violation of the fundamental rights of such a large population.

Former Chief Justice N V Ramana had raised this issue before his retirement and stressed that there was need to increase the efficiency of the country's criminal justice system. From indiscriminate arrest to difficulty in obtaining bail, the process leading to prolonged incarceration of undertrial

prisoners needs urgent attention, he said, while calling for a holistic solution to the problem. The outgoing CJ listed this as the most important planks for judicial reform.

Prime Minister Narendra Modi had also recently spotlighted the plight of undertrials and called upon the National Legal Services Authority to provide prompt legal help to these people so that they can secure bail and be released from jails. The problem has been widely considered as a collective failure of the Indian state.

The worst part is that a large number of these undertrials may have been wrongly confined on faulty or fabricated charges. Thousands are presumably innocent and are in jail because they are only accused of a crime that is still not proven in a court of law and there is no effort from the agencies concerned, including the courts, to either speed up trial or help the victims with legal recourse against their illegal confinement. The result is that they end up spending their best years in jail. When their cases finally come up for consideration, the courts treat those as routinely as anything else and not a thought is spared on how such large population of citizens are wronged by a faulty system. Do not let plastic become a part of everyday life

VIJAY GARG

Plastic bags hanging in their hands may be convenient for people to bring any goods from the market, but due to this, the challenge that has arisen in front of the environment today, it is not hidden. The condition is that today plastic is playing a big role in polluting the surrounding areas and the everyday life of the people is also badly affected. This is when the pollution caused by polythene bags for a long time has caused many problems in the environment. New challenges have arisen and due to this common people are also worried. It can be gauged from this that in view of the future crisis arising out of this, strict steps have been taken by the government to

ban single-use plastic bags, but even today the required awareness to stop using it could not be created. Is. It is not without reason that even today people do not feel hesitant to bring any goods in plastic bags. Whereas these bags, which accumulate one by one, become one of the biggest factors of pollution. Haven't done significantly, about two months ago, the government completely banned single-use plastic across the country. Despite this, it continues to be used almost everywhere. The shopkeepers give goods to the people in such bags and the common people without any question or hesitation go home with any item in these bags. According to a recent report by the Union Environment Ministry itself, despite the ban, people are using single-use plastic the most in public places in the country. However, in the months of July and August More than ninety-nine thousand people were fined for violating the ban on single-use plastics across the country, but the impact it has had on the ground is generally visible everywhere. After

the implementation of the new law, investigative teams of the Ministry of Environment and local bodies across the country specifically identified airports, railway stations and bus stands and found the most violations of these. In addition, it is still used today in the shops and markets of residential settlements. I am It's hard to under-

stand why people don't try to avoid using single-use plastics despite knowing the dangers of it! There was a time when people used to take clothes or any other bag from their house if they went to the shop or market to buy something. That bag was in use for a long time. Bags made of cloth rarely cause pollution or harm to the environment in any way. But today people go to the market empty handed and bring goods in plastic bags. Considered a measure of hobbies or status. How such bags accumulated in homes are thrown away carelessly, it is well known. Since the process of their destruction is very complex, they carry out chemical reactions that pollute the climate by going through drains and through rivers or by depositing in garbage dumps. Many people are now aware of its danger. But there are many people who, even knowingly, are making single-use plastic a part of everyday life. the question is Who will ultimately bear the brunt of this?

Vijay Garg Educational Columnist Malout Punjab

QUEEN ELIZABETH HAS LEFT BEHIND AN UNEQUAL AND POORER BRITISH SOCIETY

ARUN SRIVASTRAVA

In the death of Queen Elizabeth II, a divided Britain finds itself in a mystified situation where the country's economy under the new prime minister Liz Truss not only faces the worst nature of shattering, it also confronts the threat of losing the emblem of being one of the super powers. It would not be an exaggeration to say that the loss of the Queen will test the political and governance skill and acumen of the rulers of divided Britain

More than being a litmus test for the new king Charles 111 as to how he would help the political executives to cope with the emerging situation, the future will pose a serious challenge for Truss to preserve the status of super power and take out the country out of the quagmire of crumbling economy. At this juncture it is imperative that the troubled economy and wounded civil society of Britain rise and face the situation sensibly as her death will have wider impact on the future development and resonate politically and constitutionally.

Some people may hate Queen, but it cannot be denied she has been the most powerful unifying force. Brexit failed to have any significant impact on the body politic of the country. Britain had faced much upheaval during last 70 years of her monarchy, but it emerged unscathed. But the future challenges are more complex and are laden with the danger to inflict damage. Obviously there is no need to underestimate the upheaval in British life. It is absolutely clear that with her absence on the political horizon of Britain, the nation will realise the non-appearance of the unifying force

A look at the prevailing economic condition of the country will make it explicit the gravity of the threat. As Duncan Weldon, correspondent of Economist, points out "Britain is supposed to be a major world power, and yet if you take away London, statistically the U.K. is roughly as rich as Romania. I have no idea how this happened."

In 2007, the U.K. was richer than the U.S. Its GDP per capita was roughly \$50,000. Now, 15 years later, the U.K. has not just stagnated, it is poorer by one-fifth than it was 15 years ago. Its GDP per capita is closer to \$40,000. Things are almost certainly going to get worse. This is stunning and confusing because the U.K. represents the birthplace of modern capitalism, the special relationship, the birthplace of the industrial revolution.

The British economy has got inflation in double digits, just over 10 percent. That's the highest inflation since 1982, about 40 years ago. So the highest inflation in four decades. At the same time, wage growth is running at about 5.5, 6 percent. So people are seeing their real incomes fall. If forecast of the Bank of England are any indicator the real household disposable income—that's the income of households is going to fall this year. It's going to fall next year. If one looks at the most recent forecast from both the government, the Bank of England, the consensus of private-sector forecasters is the economy is slipping into recession. That's expected to last for most of next year, 2023. So the immediate outlook is pretty grim.

The experts nurse the feeling that Britain is facing the worst economic crisis and it is unlikely that the new prime minister Liz Truss would succeed in salvaging the situation. It is taking note that the Bank of England has already come out with the projection that a deep and lasting recession is knocking at the door. This comes after a 15-year period of utter economic stagnation and Brexit. It is really sad and disgusting that past prime ministers did not apply their minds to find a way out to salvage the situation and simply helped the crisis deepen further, for the worst.

Of late Britain and its people have been witness to the alarming energy price rise. The people say that they have not experienced such a situation since the oil shock in 1973, but in many ways worse. The fact is Queen's death has pulled down the business and economic activity in Britain when the government, Bank of England and companies are battling to contain inflation and mitigate a deep economic crisis. Though Truss has announced support package, to cost more than 100 billion pounds, it is not yet clear how far it would help salvage the situation. It is designed to protect households and businesses from the surging energy prices.

Since 1952, Queen Elizabeth's image and cryptogram have appeared on nearly all government-issued items, including coinage and passports. However, following Queen's death, the UK will see lots of changes and updates from coins to passports. The exercise to replace the image on currency, stamps, and cyphers of Queen Elizabeth II with King Charles III will cost a considerable sum to the UK. All UK passports will also require a change.

According to government data, a fifth of UK households now faces an average shortfall of £60 per week between what they earn and what they need to pay for necessities like electricity bills, rent, transportation, and food as people's disposable income is at its lowest level in almost five years. BBC reported that this week, on Wednesday, the Sterling fell 064% to \$1.145, a level not seen in over 35 years. Bank of England also said that a weaker outlook for the UK economy in the backdrop of a stronger dollar was putting pressure on the sterling. The Bank anticipates that the economy will contract in the final three months of 2022 and continue to contract through the end of 2023.

Undoubtedly death of Queen Elizabeth marks the start of a new era for the U.K. which is fraught with economic uncertainty and dampening national sentiment. The British pound has already been on a downward trajectory over the past several months, hitting a 37-year low of \$1.1469 on Wednesday. The economic downturn that Britain is facing will also affect its associate countries. Developed countries such as Australia, New Zealand, and Canada are constitutional monarchies, and their political systems are oriented in a way that the new monarch of the United Kingdom will as part of the usual process become their head of state. The colonial past of these countries will have impact their political economy. The new era, beginning post Queen's death, will witness a lot of changes that would directly change the way and mode of Britons lives.

FORGOTTEN MEMOIRS: BUT THE MEN WHO FOUGHT IN THIS OPERATION WERE HEROES!

M S NAZKI

Operation Pawan: War is not just the shower of bullets and bombs from both sides, it is also the shower of blood and bones on both sides!

"But the success of a military campaign is evaluated based on the degree of achievement of planned goals and objectives through combat and noncombat operations. This is determined when one of the belligerent military forces defeats the opposing military force within the constraints of the planned resource, time and cost allocations."

"The employment of an armoured regiment in a built-up area manifested with jungles, sea and lagoons was unique. The ingenuity of the officers and the troops ensured that casualties were bare minimum. The bravery, leadership and camaraderie displayed has been etched in the ethos of the regiment and it continues to perform at its peak combat efficiency. he Regiment lived up to its motto of Maan Ya Mrityu, Jai Hind!..... (A tribute to IPKF from a veteran)"

"We Indians celebrated the Azadi Ka Amrit Mahotsav! Operation Pawan was also a great operation, where Indian soldiers performed extraordinarily well but the operation taught us many things!"

"The most important lesson it taught us was how to fight an enemy in a hostile terrain where the enemy was unknown but it was known that their (LTTE) leadership was far too dangerous!"

"Though several years after Op-Pawan Sr Lankan Army vanquished Prabhakaran led LTTE but memories just take you back into the nostalgia!"

"This story is all about Operation Pawan where we lost many to get nothing but Indian soldiers always stood firm there also!"

"Complex operations, in which agencies assume complementary roles and operate in close proximity—often with similar missions but conflicting mandates—accentuate these tensions. The tensions are evident in the processes of analyzing complex environments, planning for complex interventions, and implementing complex operations. Many reports and analyses forecast that these complex operations are precisely those that will demand our attention most in the indefinite future."

"Thirty-Five years later with 1300 killed in action and approximately 3500 grievously injured have been kept away from public memory on the sacrifice of the Indian Servicemen in a foreign country! They were honored!"

"Lt Col Manoj K Channan (Veteran) wrote this (bad habit of mine I carry a diary with me and I noted this one, Operation- Pawan was launched on 30th of July 1987 on the signing of the Indo Sri Lanka Peace Accord between Late Prime Minister Rajiv Gandhi and Sri Lanka President Junius Richard Jayewardene on 29th July 1987."

"This was the first overseas tri service peace keeping operation launched to bring relief to the Tamils of Sri Lanka who were under duress; the local laws had been amended by an act of parliament to bring the stature of the

Sri Lankan Tamil to a status of a second-grade citizen."

"As an essayist Barton and O'Connell note, our intelligence and understanding of the root cause of conflict, multiplicity of motivations and grievances, and disposition of actors is often inadequate. Moreover, the problems that complex operations are intended and implemented to address are convoluted, and often inscrutable. They exhibit many if not all the characteristics of "wicked problems," as enumerated by Rittel and Webber in 1973: they defy definitive formulations; any proposed solution or intervention causes the problem to mutate, so there is no second chance at a solution; every situation is unique; each wicked problem can be considered a symptom of another problem. This political maneuver was to fail and it..... It is up to the animalists to analyze?"

"Again this s not the part of our story! Operation Pawan had many heroes and about one we will talk about today! This sequence will keep going on and on.....!"

"peration Pawan was the code name assigned to the operation by the Indian Peace Keeping Force (IPKF) to take control of Jaffna from the Liberation Tigers of Tamil Eelam (LTTE), better known as the Tamil Tigers, in late 1987 to enforce the disarmament of the LTTE as a part of the Indo-Sri Lanka Accord. In brutal fighting lasting about three weeks, the IPKF took control of the Jaffna Peninsula from the LTTE, something that the Sri Lankan Army had tried but failed to do!"

"The Tamil Tigers had fought to establish a Tamil homeland, separate from Sri Lanka, in the northern and eastern portion of Ceylon (Tamil Eelam). This effort led to a series of armed conflicts with the Sri Lankan military. In the late 1980s India, feeling considerable pressure from its Tamil nationals, began to intervene on both a diplomatic and military basis. Negotiations led to the Indo-Sri Lanka Accord, signed in Colombo on 29 July 1987, under which the Sri Lankan government agreed to give the nation's provinces more power and autonomy and withdraw its troops to their barracks. The Tamil rebels were to surrender their arms as well!"

"Most Tamil groups, including the Tigers, had not participated

in the talks. Only reluctantly did they agree to surrender their arms to the Indian Peace-Keeping Force as provided by the Accord. Even so, many rebels did not surrender their weapons, and the situation quickly flared into active confrontation. The Tigers declared their intent to continue armed struggle for an independent Tamil Eelam and refused to disarm. The IPKF soon found itself engaged in a bloody police action against the Tigers, which culminated in the rebels being cornered on the Jaffna Peninsula, at the northern end of the island. The IPKF set out to complete its mission of disarming the LTTE by taking Jaffna by force!"

"By 7 October, the Chief of Army Staff (CoAS) had issued directives to the IPKF, laying down its operational parameters. It was to:

- Seize/destroy LTTE radio and TV transmission equipment in the Jaffna Peninsula
- Seize or jam the LTTE communications network
- Carry out raids on LTTE camps, caches and strongpoints
- Detain and interrogate personnel manning LTTE offices in the East to gain information. In case of resistance, force to be used.
- Actions to further consolidate the hold of the IPKF in the region!
- But something heroic did happen:

"The first battle signaling the real beginning of Operation Pawan was the heliborne assault on the Jaffna University headquarters of the LTTE by a detachment of Indian Para (Special Forces) and Sikh Light Infantry soldiers on the night of 12 October. This was planned as a quick commando raid to capture the top LTTE leadership and local commanders who, according to Indian intelligence, were supposed to be in the building at the time and was thus expected to cut short the battle for Jaffna. The plan was to land 17 commandos from the 10th battalion of the Parachute Regiment to secure the football field.

"A second wave was to follow with platoon (30 troops) from the 13th battalion of the Sikh Light Infantry. The heliborne troops were to link up with the 4th battalion of 5 Gorkha Rifles (Frontier Force) of 72 Brigade and the Sikh Light Infantry troops advancing on the ground. That was the beginning!"

"Thirty-Five years later with

1300 killed in action and approximately 3500 grievously injured have been kept away from public memory on the sacrifice of the Indian Servicemen in a foreign country. This year on 29th July 2022 is the day when the Braveheart's of OP Pawan were honored at the National War Memorial.

"The Tamil youth took to the gun and this movement was supported by the Sri Lankan Tamils overseas who launched a campaign for an Elam (freedom) from the shackles of the Sinhala regime."

"At the same time the Indian Army simultaneously undertook Brass Tacks series of exercises, culminating in Exercise Brass Tacks IV, which involved the mobilisation of India's offensive corps in the deserts of Rajasthan along with the Indian Air Force and the Indian Navy.

"All attempts to get Prabhakaran on board were failing. In a last resort attempt, Prabhakaran was flown by his R&AW handlers from Chennai to New Delhi to meet with the PM. Prabhakaran refused to change his stance, to consent to the peace accord. The LTTE supremo was left to himself to manage his way back to Jaffna. This insult was not forgotten and the revenge was taken on 21 May 1991 at Sri Perumbudur, in which a suicide bomber targeted Rajiv Gandhi. Recently the co-accused were released from jail having completed their prison terms."

"But on First August 2022 something else was also happening! I have told you all time and again that no one knows the future.

"This ceremony was successfully held for the second time to commemorate its 35th Anniversary by the Veterans of OP PAWAN who engaged with the Army HQ and were permitted a silent ceremony.

"The ceremony was attended by approximately 100 officers, ladies and the NoK of those who had made the supreme sacrifice. Mrs Surjeet Bedi mother of Late 2/Lt Amardeep Singh Bedi, Vr C (P). The Braveheart laid down his life on 18th of Jan 1989.

"The 65 Armoured Regiment was the only armoured regiment on the island, as GOC IPKF called it, his hammer to knock out any enemy who posed a threat to the IPKF. Col SP Khanna, was the then Commandant for the entire duration of the Regiment's overseas deployment. "The Regt was awarded two gal-

lantry awards, Late Col Anil Kaul, Vr C and Capt Sudhakar Madhavan, Sena Medal Gallantry, Posthumous.

"The Regiment sacrificed 1 Officer, 1 JCO and 15 OR. The Regt lost five T 72 M1 tanks in OP PAWAN. Two T 72 M1 tanks were killed by the use of Improvised Explosive Devices. One was an M Kill, and two tanks were rendered non-operational due to extensive hits by RPGs and accurate small arms fire destroying the day and night vision devices.

"It would be pertinent to mention that the Commandant Col SP Khanna and the second in command Late Lt Col Jasbir Singh Luthra the names of the Squadron Commander that time Major Ajit Singh Bhinder, Captain Abraham Alex, Captain Tarundeep Kumar, Captain Satnam Singh, Captain Ratan Chandra Shaw, Captain Sanjiv Kumar who led the troops in multiple operations with Six Brigade Headquarters and Twelve Infantry Battalions.

"In the subsequent operations, Major Ashok Sirohi, Major IP Singh, Major KSS Guleria, Major Jaideep Singh Sandju, Major Rajeev Mannali, Major Rajeev Verma, Maj Nalin K Jaini, Captain Taranjit Singh, Captain Parminder Singh, Captain Rajeev Pandey, Captain Rummy Pannu, Captain Harish Katoch and young 2/Lt Satinder Pal Singh who was grievously injured while leading a Quick Reaction Team to assist 59 Mountain Brigade under attack by the LTTE. Our OC LRW Major Vidosh Sabharwal and Quarter Master Late Lt Col VV Luke each contributed to the success of the operations.

"On cessation of a brutal engagement with the LTTE, its cadres were forced to melt away to the jungles of Vavuniya and Mullaitivu.

"GOC IPKF was released additional troops and the IPKF, which had 54 Infantry Division and 36 Infantry Division at Jaffna and Trincomalee, was now augmented by 4 Infantry Division to Vavuniya and 57 Mountain Division to Batticaloa. 57 Mountain Division was a specialist formation highly skilled in Counter Insurgency Warfare in Nagaland and Manipur. On their induction, the LTTE was further reduced in its capabilities and capacity to wage a successful campaign against the IPKF.

"The mechanised forces were also restructured as Combat Groups in the following manner.

"Combat Group 65 Armoured Regiment shed Alpha (Dogras) and Bravo (Jats) Squadrons and was allocated a company of 13 Mechanised Infantry to be deployed at Batticaloa, under command of 57 Mountain Division and co-located with 59 Mountain Brigade.

"Combat Group 13 Mechanised Infantry was deployed with Bravo Squadron at Trincomalee to ensure the protection of the harbour and the airfield under command 36 Infantry Division.

"Combat Group 15 Mechanised Infantry was deployed at Vavuniya with Alpha Squadron and under command of 4 Infantry Division.

To amplify each action fought would be impossible to narrate in a short article, the list of Honours and Awards The include one PVC, 6 MVC and scores of other awards and Mention in Dispatches is adequate to state that the Government of the day awarded the bravery and sacrifice of the men in uniform. The gallantry displayed and sacrifices made in Op-Pawan were no lesser than that displayed during Operation Vijay.

BRIEFLY NEWS

Neelam Kothari to star in 'Made in Heaven 2'

Neelam Kothari Soni is garnering praises for her splendid portrayal in Netflix's 'Fabulous Lives of Bollywood Wives.'

Neelam has been receiving accolades for being herself in the show. This is the second installment of the popular Netflix show. The show depicts the reality behind the lives of the glamorous Bollywood wives.

Neelam plays herself and she has successfully struck a chord with the audience due to her adorable and graceful persona. People have been sharing clips of Neelam from the show that depict her not-much shown, funnier and outgoing self.

In one of the episodes, Neelam shared the news about her stint in Zoya Akhtar's celebrated and much talked about 'Made in Heaven 2.'

'Made in Heaven' garnered rave reviews and season 2 of the same has been highly anticipated by the fans.

Neelam's stint in the second season of Zoya's popular web series that shall also feature her husband Samir Soni and Sanjay Kapoor has left fans cheering and rooting for their favourite actress.

Neelam said, "I was elated when I heard the script. Zoya's craft is really unmatched. The fact that I get to share screen space with Samir is absolutely thrilling! Neeraj Ghaywan is a gifted director. I am sure the audience is going to love seeing me, Samir and Sanjay, together on the screen."

Neelam glorified the Indian film cinema with her 'girl-next-door' aura in the late 80s and 90s era of Bollywood.

Martial Arts is meditation for me: Reyhna Pandit

Zee TV's 'Kumkum Bhagya', has been an audience favourite, courtesy of its intriguing plot and authentic portrayal of relatable characters like Ranbir (Krishna Kaul), Prachi (Mugdha Chaphekar), Rhea (Tina Philip), Shahana (Aparna Mishra) and Aaliya (Reyhna Pandit).

While all the stars have been working round the clock to keep their viewers entertained, it looks like Reyhna has also been catching up with her much-awaited bucket list hobby amidst her hectic shooting schedule.

It's not usually easy for an actor to take out time from their hectic schedule, that too for a hobby that requires consistency. But it looks like Reyhna a.k.a. Aaliya has figured out a way to tick off learning martial arts from her bucket list.

After trying every other form of fitness, Reyhna has started learning martial arts and is setting a benchmark high for everyone who is into fitness.

Reyhna said in a statement, "I have been a fitness enthusiast for a long time now, be it a workout form or maintaining a style of diet, I have tried pretty much everything. Martial Arts was in my bucket list for a while now, and in spite of my busy schedule, I have always managed to take out time for it, because it's like a meditation for me."

"I must say martial arts is one of the great forms of exercise, as it has a number of health benefits. It helps us in not only improving our physical health but also our mental health. It helps develop flexibility and losing weight, keeps blood pressure in check, and many more. I would personally recommend everyone to join martial arts to maintain a healthy lifestyle," she added.

'Kumkum Bhagya' airs every Monday to Friday at 9 pm, on Zee TV.

Priyanka announces opening of 1st Victoria's Secret store in India

Global icon Priyanka Chopra Jonas on Saturday announced that the American lingerie, clothing and beauty retailer Victoria's Secret, will open its first ever grand store in Phoenix Palladium here later.

Sharing a video on social media, Priyanka wrote, "the first Victoria's Secret store opens in Mumbai, India. I can't wait for you all to experience all that the brand has to offer."

In the video, Priyanka said: "I am so excited to make this announcement, because it is finally here. Drumroll please, the Victoria's Secret store opens in Phoenix Palladium mall in Mumbai, with the entire assortments of lingerie, sleepwear, beauty, and accessories, basically all my favourite things. So head to the store to experience first Victoria's Secret in India".

"The store offers features like streamlined navigation to guide customers throughout the space and a modern fitting room. It has Victoria's Secret lingerie, PINK and beauty," a statement said.

On the film front, she will be next seen in 'Citadel', 'It's All Coming Back To Me', 'Sheela', 'Tulia', 'Cowboy Ninja Viking', and 'Jee Le Zaraa'.

Mohd Danish sings 'Maha Aarti' in Sony SAB's 'Mahasangam' episode

The much-awaited 'Mahasangam' of Sony SAB's two most beloved shows, 'Wagle ki Duniya' and 'Pushpa Impossible', is set to air on September 12-13th.

'Indian Idol 12' finalist, Mohd Danish has lent his voice to the 'Maha Aarti' track that is dedicated to Lord Ganesha. The singer is on cloud nine and feels highly honored to be a part of the 'Mahasangam'.

Sharing about his work in the show, Danish said in a statement, "I was hooked the moment I got to know about this opportunity to sing for the Mahasangam. As I learned more about the song, I fell in love with it and knew it had to be me performing it! Just saying that the final track was good would be an understatement."

"It was an out of the world experience for me when I heard it. The song is sure to give goosebumps to the listeners. Seeing the buzz around this tune makes me feel appreciated as a singer and having Bappa's name in it makes it all the more better! I'm honored and grateful to be a part of this track and to Sony SAB for this opportunity," he added.

The Mahasangam episodes will feature prominent characters from both shows coming together to help each other in times of crisis, with Lord Ganesha's blessing. The episodes promise to be a roller-coaster of drama and thrilling twists, all while capturing the magnificence of Ganeshotsav.

It will air on September 12-13 at 9PM, on Sony SAB!

Disney+ Hotstar announces 3 Indian titles

Firing its next salvo of exciting content, Disney+ Hotstar on Saturday announced three Indian titles at the global Disney fan event D23 Expo.

The new lineup includes talk shows 'Koffee with Karan' (Season 8), along with 'Showtime' and 'Mahabharata'.

This announcement further strengthens the platform's collaboration with ace Bollywood filmmaker and host Karan Johar (Koffee with Karan and Showtime), and mints a new association with maverick producer Madhu Mantena, Mythoversstudios and Allu Entertainment (Mahabharata).

'Koffee with Karan' (Season 8) is produced by Karan Johar, Apoorva Mehta and Aneesha Baig (Dharmatic Entertainment Production), and the fiction series 'Showtime' is produced by Karan, Apporva Mehta and Somen Mishra (A Dharmatic Entertainment Production). Gaurav Banerjee, Head - Content, Disney+ Hotstar & HSM Entertainment Network, Disney Star joined a panel on international content, along with Rebecca Campbell, Chairman, International content and Opera-

tions, The Walt Disney Company, Fernando Barbosa, SVP, Media Distribution & Prod., LATAM, Jessica Kam-Engle, Head of Content & Development, APAC and Lee Mason, Director Scripted Content, EMEA.

The discussion focused on eclectic global content trends, particularly high-

lighting Disney+ Hotstar's role in shaping content in India and beyond.

Sharing his views on the upcoming Indian lineup, Banerjee said, "Over the last several years, India has emerged as a content powerhouse, pushing the envelope with stories that transcend language and cultural

boundaries.

"For a nation at the center of the OTT revolution, Disney+ Hotstar's pioneering stories have been dominating viewers' preferred content library. We couldn't have asked for a more profound curtain raiser on our upcoming lineup at a globally coveted platform such

as D23 Expo 2022, where we have an opportunity to share the glimpse of soon to be launched shows Showtime, Mahabharata and Koffee with Karan Season 8."

Karan said: "I am excited to associate with Disney+ Hotstar for our new collaboration, announced at the prestigious D23 Expo.

In addition to yet another exciting season of my beloved show, Koffee With Karan (Season 8), happy to announce an all-new Dharma Production series, Showtime, which will lift the curtain on India's entertainment industry's biggest trade secrets."

Madhu Mantena said: "For centuries Indian epics have captured the imagination of billions around the world. These epics are deeply woven into the very fabric of our nation. The Mahabharata - one of the oldest epics in India, despite being as old as time, is still relevant today for the many lessons and words of wisdom hidden within its ancient verses."

"It is said that every known emotional conflict experienced by mankind finds form in Mahabharat through its complex characters and storylines. We at Mythoverse are absolutely delighted to have this opportunity provided by Disney+ Hotstar to bring out a rendition of this great Indian epic Mahabharata and for announcing this news on a prestigious global platform at the D23 Expo," Madhu added.

'SIYA' role of lifetime: Pooja Pandey

The makers of cinematic gems like 'Masaan' and 'Newton' are all set to release another important work of storytelling, 'SIYA'.

Produced by Drishyam Films, the film takes audiences through a tale of a small-town girl who despite all hurdles, decides to take down oppressive patriarchy and fight for justice.

'SIYA' marks producer Manish Mundra's directorial debut and though the hard-hitting film starring Pooja Pandey and Vineet Kumar Singh is based out in one of the northern states in India, much like most of Drishyam's films, it speaks to a global audience.

While the teaser of 'SIYA' had created much intrigue with audiences, the trailer is gripping from start to finish as we can't help but relate and empathize with the protagonist's plight. Raw and as real as it gets, 'SIYA' is an uncompromising look at the harsh reality women around the world continue to face.

A plight for justice, a fight for what's right, the trailer takes audiences through the journey of the protagonist who navigates a man's world. The trailer of the

film also gives audiences glimpses of the stellar performances in store as Pooja Pandey and Vineet Kumar Singh truly push the envelope as performers.

Director Manish Mundra said, "It is a labour of lot of effort and hardwork that we all have put together in making this film. The issue itself is sensitive and needs to be dealt with lots of empathy and emotions. I hope when the film releases the audience bestow their love to it and hopefully like it too."

Vineet said, "As an actor, I'm always on the lookout for new and challenging roles and Siya is one of them. It's always special because while I've worked with Manish on three films

before, this is our first as director-actor and I'm happy to be part of his directorial debut."

Pooja shared, "This is a role of a lifetime. It challenged every aspect of me as an artist. Victims have endured so much and I had to ensure that the character reflected the rollercoaster of emotions that goes through a woman's mind when something this terrible happens to her. I hope I've done justice to the character and I still get goosebumps thinking about the woman who had to deal with something as heinous as this and sometimes I feel I haven't come out of this character."

Produced by Drishyam Films, 'SIYA' will release on September 16.

'Dhokha-Round D Corner' trailer promises pacy thriller

The trailer of a pacy, edge-of-the-seat thriller 'Dhokha-Round D Corner' was unveiled on Saturday.

'Dhokha' is a multi-perspective thriller starring R Madhavan, Khushalii Kumar, Darshan Kumar and Aparshakti Khurana. This film by Kookie Gulati is a suspense drama based on a day in the life of an urban couple that takes you on an unexpected journey with twists and turns showcasing shades of grey in each character.

Producer Bhushan Kumar said, "Dhokha is an unconventional, commercial potboiler. The treatment of the film is extremely different from what you've seen before. Apart from the story and the screenplay, the performances in 'Dhokha' are truly breakthrough and will make an impact on audiences."

Director Kookie said, "One day can change your life and Dhokha will compel the audience to ponder over what is true and what is false. It will leave you gripped from start to

finish."

Madhavan shared, "Dhokha is driven by its performances and storytelling. The characters are not simply black or white. There are no good guys or bad guys; every single one of them has something beneath the surface."

Khushalii commented, "There can be one truth, but there are always different perspectives to it and that's what 'Dhokha' plays on. I was thrilled when I read the script and the film is truly clutter-breaking."

Darshan said, "Dhokha will leave audiences at the edge of their seats. It's a thriller that doesn't have an ultimate answer and always leaves you guessing."

Aparshakti added, "This is definitely one of my most challenging films because the character is very layered, eccentric and unlike anything I've done in the past. I look forward to how audiences react to it."

Produced by T-Series, 'Dhokha- Round D Corner' will hit the theatres on September 23.

'Brahmastra' mints Rs 75 cr on day 1

Ranbir Kapoor and Alia Bhatt starrer 'Brahmastra Part One: Shiva' has delivered a massive opening day of Rs 75 crore, igniting celebrations across the film Industry, theatre owners and audiences, with the weekend total expected to be huge.

'Brahmastra' has received phenomenal audience reactions from India and across the globe, calling it the must watch 'big screen' experience of all time and a complete family entertainer with action, romance, drama and grand VFX for all age groups.

Director Ayan Mukerji took to the social media and shared the news. He wrote, "BRAHMASTRA DAY 1 Gratitidue. Excitement. Hope. A Big Thank You to Everyone Everywhere

who has gone to the Cinemas to experience Brahmastra, keeping our movie-going culture, vibrant and dynamic. Looking forward to the next few days..."

Produced by Star Studios and Dharma Productions, the magnum opus is currently in theatres in 2D, 3D and Imax 3D in Hindi, Tamil, Telugu, Malayalam, and Kannada with an ensemble cast of Amitabh Bachchan, Ranbir, Alia, Mouni Roy and Nagarjuna Akkineni.

Brahmastra: Oscar winner 'Prime Focus' behind stunning VFX

Highly-anticipated film 'Brahmastra: Part One - Shiva' has finally hit the theatres, and the film has garnered positive response from across movie lovers and critics for its astounding visual effects.

With Alia Bhatt, Ranbir Kapoor and Amitabh Bachchan in the lead, it is however its VFX capabilities which has turned out to be the hero of the film.

The first edition of Ayan Mukerji's epic fantasy magnum opus 'Astraverse' has captured the imagination of viewers after its Friday release.

An ambitious story directed by Ayan that took a decade to hit the screens, along with a diverse pool of talent, the benchmark was set high enough to represent Indian films at a global level.

To help achieve this, Namit Malhotra, Founder of Prime Focus Limited, Chairman and Global CEO of a seven-time Oscar-winning company DNEG came on board as a Producer and joined the team of renowned studios like Fox Star Studios, Disney and celebrated producer Karan Johar's Dharma Productions.

'Brahmastra' is an ambitious trilogy that is a unique confluence of ancient Indian mythology, spirituality, cul-

ture, and modern technology, creating a visual spectacle, the likes of which have never been seen before in the history of Indian Cinema, the makers have said.

It is the first of its kind to envision a cosmic universe that has been made true to scale through the lens of VFX and Technology.

Prime Focus, partnered with the creators of Brahmastra at every stage of the process, ensuring creative enablement, workflow efficiencies and project optimization.

The ripple effect of this partnership with Prime Focus (PF) led to 'Brahmastra' being the first project during the ongoing pandemic to extensively use Prime Focus's incubated technology CLEAR and Media ERP suit ensuring seamless data transfer of high quality shots and data security from inception to delivery.

Modern technology has played a massive role in the creation of this adventure fantasy film and couldn't be achieved without the technical advancements and expertise of a truly global media integrated studio.

The makers of 'Brahmastra' roped in the talented teams of Prime Focus Group that delivered 3D Conversion on critically and tech-

nically acclaimed movies like Avatar and Gravity. Prime Focus teams were also entrusted with the task of cloning and mastering of the digital assets for regular and IMAX 3D screens.

The PF group also provided the colour grading (DI) services for the film and this complex task was achieved to blend the fantasy world with the real seamlessly. The editing of Brahmastra was under the supervision by PF's very own co-founder, Prakash Kurup.

Additionally, Brahmastra was also supported with On-set Camera Equipments and state of the art sound stages. Jam8, a music and sound design studio led by Pritam in partnership with Prime Focus contributed to the epic sound effects and scores for Brahmastra that are sure to tantalize the view-

ing experience.

With a proven track record of 25 years in media integrated solutions, Prime Focus' renowned VFX studios DNEG and ReDefine's global teams collaborated with the makers to produce the magnificent visual effects that we see today in the shots of 'Brahmastra'.

The same teams from DNEG have also contributed to Oscar-winning movies like Dune, Tenet, Bladerunner 2049, First Man & more. This massive feat was achieved by over 3000 artists from the Prime Focus group over the period of the last four years.

In comparison to 'Avengers: End Game's 2,400 VFX shots, 'Brahmastra Part 1: Shiva' boasts over 4500 VFX shots, making it a potential record holder for the most visual effects in any film globally.

The VFX of this movie is set to land the audience in an immersive experience, the creative and technical teams across London, North America, and India worked in synergy under the guidance of Namit Malhotra, who was involved in the making of this movie right from its inception to final delivery.

Ayan said in a statement, "Brahmastra is very close to my heart. The idea of Brahmastra was ploughed into my mind way before I even realized it. I grew up listening to the stories of Indian history and mythology and was always fascinated by them. I wanted to create a story that was deeply rooted in Indian spiritual history but also had modern twists and turns."

"Inspired by many movies that brought fantasy worlds to life, I envisioned creating the world of Brahmastra in a way that would challenge the limits of Indian cinema. Namit and his teams were an integral part of this journey and have worked hard alongside me to bring this adventure film to life. The relentless work of his team and the hard work of the entire team and cast of Brahmastra has allowed us to bring to the audience, a film like never before," he added.

Namit Malhotra, said, "From editing small budget

projects to delivering Oscar worthy cinematic experiences, it's been quite a long and rewarding journey for us. All these experiences over the past 25 years combined with technological and VFX advancements have helped us bring Ayan's vision, Brahmastra to life - our biggest Indian project to date. I feel truly honored to be a part of such a project alongside Ayan, Karan Johar, Dharma Productions, Disney and Fox Star Studios."

"The concept of the Astras is deeply rooted in Indian mythology and immense attention to detail and research have gone into creating them for the screen. Our goal was to enable Ayan to create a first-of-its-kind Astraverse that would have the audience at the edge of their seats. This couldn't have been achieved without the unabating hard work from teams across Prime Focus, DNEG, and ReDefine. Today, I am truly proud of the work we have done with Brahmastra and I hope it sets a benchmark and inspires many filmmakers and artists to push the envelope," Namit added.

'Brahmastra' has been released in five languages; Hindi, Tamil, Malayalam, Kannada, and Telugu, in both 2D and 3D across the country.

Doda: DLC approves 4 Trout units under PMMSY, Capex Budget

DC Kathua chairs DLTF meeting on safety of bridges

DDC calls for identification of potential source areas to create more units

DODA, SEPTEMBER 10: District Development Commissioner Doda, Vishesh Paul Mahajan today chaired a meeting of the District Level Committee on Pradhan Mantri Matsya Sampada Yojana (PMMSY) here in the mini meeting hall of the DC office.

Four cases were presented before the Committee under PMMSY and Capex budget for the year 2022-23 and after detailed discussion the Panel Chairmanship of DDC approved all the cases for the creation of Trout rearing units.

Pradhan Mantri Matsya Sampada Yojana (PMMSY) is a central scheme aimed at harnessing the fisheries sector potential in a sustainable manner to double the income of Fish Farmers and Fishers.

The DDC directed the concerned department to approved Fish Farms by conducting regular inspections. He further asked the department to identify more potential areas with a good source of cold stream and spring water for establishment of more units. He also inquired about the functioning of Trout hatchery Bheja with regard to production of fish seeds and fingerlings and the same being provided to farmers of the district for rearing in their units on priority basis.

The DDC urged the department to encourage Fish Farmers to create co-operatives and to explore the full potential of this lucrative sector.

Besides, the department was directed to launch an intensive campaign for implementation of the scheme across the district by roping in the Panchayati Raj Institutions.

The DDC further directed all the members of the Committee to synergise their efforts to realize the aim and objective of the scheme in letter and spirit. The meeting suggested exploring the possibility of implementing the scheme in convergence with RDD and other departments.

Among others, those present in the meeting were SE Hydraulics, CPO Doda, ACD Doda, CAO, District Head KVK, AD Fisheries, District Manager Lead Bank, besides progressive farmers and other concerned.

KATHUA, SEPTEMBER 10: Deputy Commissioner Kathua Rahul Pandey today chaired the maiden meeting of District Level Task Force mandated to ensure safety of the bridges and removal of accumulated materials here at DC office complex.

CPO Kathua, XEN PWD (R&B) Kathua, XEN PWD (R&B) Basohli, XEN PMGSY Kathua, XEN PMGSY Basohli, XEN Irrigation, XEN Flood Control, XEN JKPC, DMO Kathua, JE NHAI and other concerned officers attended the meeting.

At the outset, the DC impressed upon the functionaries of different executive agencies to identify bridges which are affected by recent flash floods and rains, like erosion or accumulation of material posing threat to the safety.

The DC also laid thrust on carrying out the safety audit of the bridges which require immediate intervention, besides formulation of a plan for scientific removal of accumulated materials to minimize the risk.

The DMO Kathua was asked to work out the mechanism for procuring material required to restore the affected bridges in the district.

It was given out in the meeting that similar exercise is to be done by BRO authorities who are looking after a number of bridges in the district, especially in hilly and border areas of Kathua.

SDM Hiranagar was also directed to identify and bring up the matter of safety of bridges which is under threat due to flash floods in border Tehsil of Hiranagar.

CPO Kathua, XEN PWD (R&B) Kathua, XEN PWD (R&B) Basohli, XEN PMGSY Kathua, XEN PMGSY Basohli, XEN Irrigation, XEN Flood Control, XEN JKPC, DMO Kathua, JE NHAI and other concerned officers attended the meeting.

At the outset, the DC impressed upon the functionaries of different executive agencies to identify bridges which are affected by recent flash floods and rains, like erosion or accumulation of material posing.

Special Summary Revision-2022

3 Day Election training programme concludes in Samba

SAMBA, SEPTEMBER 10: Three day long Election Officer, Divakar Khajuria explained about the role of supervisor and BLOs in checking the prerequisites before processing the prescribed forms.

The training programme was conducted under overall supervision of District Election Officer (Deputy Commissioner) Anuradha Gupta.

The Deputy DEO said that the ECI has initiated different measures to fine-tune the electoral rolls for which ERO-NET is being used to generate an error-free voter list, besides lessening the paper work as correct forms filled at the entry level will be accepted through the system.

The participants were explained about different steps involved in the ERO-NET including online processing of forms.

During the training session, enrollment process and other relevant queries and doubts raised by the BLOs were also answered by the Dy.DEO.

RAJOURI, SEPTEMBER 10: District Development Commissioner Rajouri, Vikas Kundal today chaired a meeting of the concerned officers to review the livelihood generation activities being carried out in the district under NLM.

A threadbare discussion on the future action plan for the SHG formation, SHG Bank linkages, financial Inclusion, livelihood activities was held in the meeting. At the outset, the concerned officer from NRLM informed that as many as 16000 active members are associated with SHGs in the district. He further informed that there are 279 Village organisations and two cluster level federations. It was informed that Rs 3.26 crore has been disbursed as Revolving Fund while Rs 6.20 crore has been disbursed as Community Investment Fund. The DDC also inquired about the number of SHGs linked with the Bank wherein the concerned officer apprised that 1495 SHGs have been linked with banks. The concerned officer also briefed the meeting that two more blocks of the district have been selected under NLM. The DDC asked to constitute SHG at SAGY village Patraara also. Taking stock of the status of Rural Haat, the DDC asked them to keep new products and take innovative measures to enhance the sale.

The DDC stressed upon the officers to ensure that the SHGs make collaborative efforts to diversify the livelihood activities and improve income.

He also directed the officers to assist the SHGs in channelizing their efforts in carving out successful businesses.

RAJOURI, SEPTEMBER 10: A day long training programme on Special Summary Revision activities for Booth Level Officers (BLOs) was held in Sunderbani. The training program was conducted under the overall supervision of the ADC Sunderbani, Vinod Kumar Behnal. During the training program, the master trainer asked the BLOs to work with dedication and enthusiasm to ensure effective registration of new voters besides take maximum benefit of training sessions and get acquainted with requisite knowledge of election processes. The trainees were explained about the processing of prescribed forms under ongoing Special Summary Revision. The role of the BLOs in checking the prerequisites before processing the prescribed forms was explained in detail.

taken as per the understanding reached in the 16th round of talks between the Corps Commanders of India and China which was held at Chushul Moldo Meeting Point on July 17. Since then, the two sides had maintained regular contact to build on the progress achieved during the talks to resolve the relevant issues along the LAC in the Western Sector of India-China border areas. The areas that still remain to be resolved in Eastern Ladakh are Demchok and Depsang where the Chinese have so far remained adamant. The lingering border standoff in Eastern Ladakh has entered in its third year. Altering the May 2020 status, the PLA has also carried out construction of infrastructure near the LAC to ensure long survival of troops in the high altitude area.

CIVIL SOCIETY

Javaid Yousef Dar and all senior Engineers and Officers were present in the meeting. At the outset, the representatives of the trade Associations welcomed the decision taken by the Government with regard to waiver for domestic power consumers of J&K on the interest accumulated in the power bills on account of non-payment of timely dues. They expressed their gratitude to Lieutenant Governor Shri Manoj Sinha for providing one time amnesty for domestic power consumers. The representatives demanded for extending the ambit of the power bills amnesty scheme to commercial and industrial category consumers so that they are benefitted from the amnesty scheme. With regard to the Revamped Distribution Sector Scheme (RDSS) approved by Government of India, the traders also hailed the initiative to improve the operational efficiencies and financial sustainability by providing result-linked financial assistance to DISCOMs for strengthen supply infrastructure based on meeting pre-qualifying criteria. The Principal Secretary listened to all the suggestions and demands of the traders fraternity of Kashmir and assured them that their demands will be looked into on priority. Pertinent to mention that the One time amnesty/waiver for domestic power consumers was approved by the Administrative Council (AC) which met in Srinagar under the chairmanship of the Lieutenant Governor, Manoj Sinha. With the decision more than 5.50 lakh domestic consumers will be benefited by waiving off an amount of Rs. 937.34 crore, accumulated as surcharge or interest, on account of non-payment of timely dues. The Administrative Council has provided this last opportunity to the consumers in view of not being able to avail the benefits of last scheme due to spread of Covid-19 pandemic during the scheme period. The new scheme envisages that the outstanding principal amount arrears accumulated upto 31.03.2022 after waiving off 100% interest/surcharge shall be paid in a maximum of twelve monthly (12) installments. The scheme further entails that the failure of payment of any installment/installments within the prescribed twelve (12) months period shall invite penalty and legal action under Electricity Act, 2010, in addition to the accrual of compound interest on the outstanding dues. The Traders, businessmen, Hoteliers, Houseboat owners among other stakeholders participated in the meeting and requested the government to accord due consideration to their demand for extending Amnesty Scheme to Industrial and Commercial establishments.

PM

the event. The last such Summit was held in India about half a century ago in 1974. The Indian dairy industry is unique in the sense that it is based on a cooperative model that empowers small and marginal dairy farmers, especially women. Informing about the program, the PMO said that the government has taken multiple steps for the betterment of the dairy sector resulting in an increase of milk production by more than 44% in the last eight years. The success story of the Indian dairy industry, accounting for about 23% of global milk, producing around 210 million tonnes annually, and empowering more than 8 crore dairy farmers, will be showcased at the IDF WDS 2022, it said. The summit will also help Indian dairy farmers to gain exposure about the global best practices.

NEURO

come means to share ideas and experiences and he expressed hope that in the next two days they will be able to gain much experience from renowned doctors attending the conference. “Neurological problems are very common in children and 10-15 percent of hospital admissions have neurological issues,” he said, adding that they have tried to accommodate most of the neurological disorders. He thanked government for upgrading pediatric section of GMC Srinagar from 250 bed GB Panth to 500 bedded super speciality hospital Bemina, which will be functional in a weeks time. “We are also planning to make a paediatric super speciality training institute and in next 10-15 years, we shall have trained pediatric super specialists in every nook and corner of J&K,” he said. He also said that the infant mortality rate has gone from 32.4 in 2015 to 16.3 in 2020 and for the first time in the last five decades Neonatal mortality rate has touched single digit which is 9.8 now—(KNO)

COVID

cases in Jammu and Kashmir are 480 including 360 from Kashmir division and 120 from Jammu division. With 131 more recoveries, the tally of total recoveries in J&K has reached to 473,421 which is 98.90 percent of the total cases. “Among the fresh 59 cases today, 15 are from Srinagar, 07 from Baramulla, 10 from Budgam, 01 from Pulwama, 02 from Kupwara, 04 from Anantnag, 01 from Bandipora,

00 from Ganderbal, 06 from Kulgam and 00 from Shopian in Kashmir division while 13 are from Jammu division that include 05 from Jammu district, 00 from Udhampur, 01 from Rajouri, 00 from Doda, 00 from Kuthua, 00 from Samba, 01 from Kishtwar, 00 from Poonch, 03 from Ramban and 03 from Reasi,” said the official. As per the daily information bulletin 6,792,772 persons in J&K are under observation while 480 persons have been kept under home quarantine besides 480 persons are in isolation. According to the bulletin, 6,786,461 persons have completed the surveillance period and 541 persons are under home surveillance besides so far results of 26,541,194 samples are available. “Out of 26,541,194 the number of samples tested negative stands at 26,062,509 while 478,685 have tested positive, among them 480 cases are active, 473,421 have recovered and 4,784 persons have died,” it added

MBBS

Furthermore, Khan said that the colleges in Bangladesh trap the students during admission and later push them to the wall. It has been now decided to blacklist all those colleges there where the students from Kashmir are being pushed to the wall by not providing facilities to them, Khan said—

DGP

DIG NIA Ashish Kumar, DIG CKR Sujit Kumar, DIG SKR Abdul Jabbar, DIG NKR Udaybhaskar Billa, AIG J.S. Johar and Chief Prosecuting Officer PHQ Suhaib Ashraf. On the onset of the meeting Spl DG CID J&K R.R Swain highlighted the measures and steps to be taken to improve the investigation skills and augmentation of manpower for speedy investigation of UAPA and other sensitive cases The DGP while addressing the officers emphasized on the need of strengthening the Special Investigation Units (SIUs) of the districts and handing over to them cases categorized keeping in view the sensitivity and importance of such cases. He emphasized on the monitoring of the selected cases at district, range and zonal levels. He directed that the range DisG will submit reports of the investigation of terror related cases registered under UAPA highlighting the progress at different stages of the investigation from the registration to the framing of charges on daily basis. He also directed that these reports will invariably also have brief notes regarding the cases registered, channeled/disposed of and the orders of the courts of law. He directed that the DisG and SSSP will closely monitor the categorized cases which would include cases registered regarding targeted and planned acts of terrorism, terror modules, narco- terrorism nexus and cases registered regarding other terror related incidents. The DGP said that district SSSps must discuss the cases with their teams and SIUs on a regular basis devoting ample time to UAPA cases. He also directed that district SSSps to follow the SOPs and also generate & circulate special reports for these teams as well as for the senior formations. He said that meticulous planning of investigation will definitely get better results which will culminate into convictions in the Hon’ble Courts. The DGP directed for SIUs strengthening and empowerment by posting an adequate number of Investigation officers for speedy investigation of the UAPA within the shortest period of time. He said that good investigation and good prosecution will help in taking the UAPA cases to logical conclusions. While reviewing the categorized UAPA cases the DGP directed for reviewing of the categorizations and stressed that the selected cases be closely monitored during investigation and during framing of charges. He said that besides SIUs Parivey officers must be posted in courts and in District Police Offices in the shortest possible time with adequate manpower so that court Parivey & district Parivey cells are established. He also directed for training of the selected investigation officers with NIA as quickly as possible and also training for Parivey officers. In the meeting it was also decided to review and plan infrastructure needs/ capabilities for witness protection and for witnesses to be produced / examined through video conferencing. It was also decided that the cases will be vetted by the DG Prosecution with the help of his prosecutors in order to check any loopholes / gaps in the investigation. Officers representing different wings of Police and NIA gave different suggestions. A threadbare discussion was held and a number of decisions were taken on spot—(KNO)

ing SCERT organizes seminar under Jawahar lal Nehru National Science, Mathematics, Environment exhibition initiative

SRINAGAR, SEPTEMBER 10: Scores of students from various government schools from all ten districts of Kashmir division took part in a seminar and an exhibition organized under Jawaharlal Nehru National Science, Mathematics, and Environment Exhibition (JNNSMEE) on Saturday in the sprawling auditorium of State Council of Education Research and Training (SCERT), Bemina. The exhibition, which was attended by numerous experts in the field and representative of National Council of Educational Research and Training (NCERT), Dr. C.V. Shimray. JNNSMEE which is being held across the nation, is a platform for kids to demonstrate their aptitude in science and math as well as how they have applied these subjects to many aspects of daily life. The experts selected three top models besides three best student speakers who delivered mind storming speeches on diverse topics related to Science, Math and Environment. An SCERT official stated that the models would go through more reviews and enhancements before possibly being displayed at the national level. While appreciating the young students, Dr. Shimray stated that their active participation abundantly demonstrated the scientific temperament we wish to foster in children. “The fact that the pupils are now thinking creatively and beyond the box is more significant and encouraging,” she said. “It’s important to support this since it will eventually result in something real.” According to Dr. Shimray, the aim of her visit is to acquire a sense of the situation on ground, to hear directly about the difficulties that the students face and to offer support for their initiatives. Later, appreciation certificates were awarded to the exemplary students.

SAMPAN-Awareness camp organised at Aspirational Blocks Marwah, Warwan

KISHTWAR, SEPTEMBER 10: To aware the farmers and general people about the Agriculture and allied sector schemes in convergence under Project SAMPAN, two day long awareness camps were organised here at far flung Aspirational Blocks of Marwah and Warwan, under the overall supervision of Deputy Commissioner, Dr Devansh Yadav and under the close supervision of GM DIC, Dr Mohammad Ashraf. During the camps, the participants were acquainted with the centrally sponsored schemes meant for the uplift of farmers and orchardists. The concerned district officers and field functionaries of various departments urged the participants especially youth to come forward and avail the benefits of Agriculture and allied sectors schemes as this District is having tremendous scope of Agriculture and allied sectors. The people appreciated the efforts of the Agriculture and Allied Department for providing the designated services at their doorstep, besides expressing satisfaction over the efforts of field functionaries of various departments in extending the benefits of different CSSs on the ground level. During the camp awareness programmes under Nasha Mukta Jammu and Kashmir Abhiyan were also launched and lectures were given at GHSS Afti and GDC Marwah, where the students were educated about the hazardous effects of Drug abuse menace. The students were sensitised to remain away from this menace as it is engulfing the student community badly. GM DIC, Dr Mohammad Ashraf; DSHO, Dr Jaffar Hussain Mir; SDAO, Manzoor Hussain; VASs, representatives of Fisheries and Cooperative Departments remained present in these camps

DC Jammu discusses District employment plan; Action plan for plying of e- Rickshaws

JAMMU, SEPTEMBER 10: Deputy Commissioner, Jammu, Avny Lavasa, today discussed District Employment plan and reviewed the action plan for plying of e-Rickshaws in the District here in two spate meetings. The event was moderated by Convener of Psychological Counseling Cell, Prof. Mohammad Iqbal Rather. Vote of Thanks was presented by Dr. Hilal Ah Wani, Assistant Professor Bio-Chemistry.

Umar Education and Welfare Trust” Organises Medical Cum Awareness Camp At Jai Ghati

By:- Amir Iqbal Khan

Bhadarwah, Sept 10:Continuing with ongoing outreach series to cover needy and poor Nomadic tribal population in high land pastures in far off areas, “Umar Education and Welfare Trust Bhadarwah” (An NGO) organised a medical camp cum awareness program in world famous tourist spot Jai Ghati of Additional district Bhadarwah on Friday. In keeping with the ongoing campaigns, “the Population Control, Women hygiene, Health, Diabetic and Hypertension related issues were the core areas of the awareness program on this occasion. More than two hundred patients were diagnosed during the camp and Medicines worth thousands were distributed among the needy nomads and migrating families. Doctor specialist Dr Shevali Sharma along with staff nurse Arpana Sharma from Sub district Hospital Bhadarwah took part in the camp. Some of the patients suffering from acute diseases were advised to follow specialised treatment. Speakers throwing light on the importance of medical camp emphasized on the need to adopt family planning procedures so as to contain problem of over-population which is badly effecting the individual as well as national economy which ultimately is responsible for slow growth and development of every aspect of life sustenance and is further multiplying poverty and destitution and also eating away the natural resources and shrinking global prosperity. People were further made aware of the importance of yoga in prevention of NCD. Later, a pledge taking ceremony was also held which was administered by the health team, NGO members among all the participants swearing to eradicate the drug abuse from the society. The move of the NGO for organising medical camp was appreciated by local people who demanded to conduct such camps in future as well. Mozim Yazzdani Chairman Umar Education and Welfare Trust Bhadarwah thanked the Health staff for rendering remarkable services during the camp. He further informed that the camp was one of the series of civic action programmes that the NGO has launched. While elaborating on the future course of action of the NGO, he said that the efforts are squarely afoot for the cause of the humanity across community and geographical barriers and NGO would remain on the forefront for all possible services to spread awareness in the society about duties besides providing different kinds of assistance to the needy in hour of crisis, he added. Prominent among others who were present on this occasion include Muzamil Yazzdani(President), Zaffar Hussain Wani(National Vice President), Shahid Hussain Malik(State Head), Yunus Ahmed Tak, Sandeep Kumar, Ubair Tak, Mubashar Butt, Mohsin Khan(all volunteers).

SADBHAVANA MEGA MEDICAL CAMP ORGANISED AT VILLAGE CHUNTIWARI, MACCHAL SECTOR

,M S Nazki

Kupwara Chuntiwari is a remote village in the Machhal Valley and is a conglomeration of a number of small villages. The nearest medical facility for some of these small villages is minimum a two hour trek and for access to medical specialists the villagers need to visit Kupwara And even Srinagar.. The Indian Army as part of the “Sadbhavana initiative* organised a Mega Medical Camp for the residents at Chuntiwari and nearby villages.Three medical specialists at the Camp were called from Srinagar; a Gynaecologist, Pediatrician and General Physician.

PM Modi Calls For Efforts To Make India Global Centre Of Research And Innovation

Ahmedabad: Prime Minister Narendra Modi today called for concerted efforts to make India a global centre of research and innovation, and urged state governments to frame modern policies in the fields of science and technology.

PM Modi said that unlike the western countries, India failed to adequately celebrate the works of its scientists, which turned a large section of the society indifferent towards science.

There is a need to celebrate the achievements of Indian scientists, he said.

Addressing via video link the inaugural session of the Centre-State Science Conclave organised in Ahmedabad, PM Modi said that since 2014, there has been a significant rise in investment in the fields of science and technology.

India is going ahead with the mantra of 'Jai Jawan, Jai Kisan, Jai Vigyan and Jai Anusandhan' (Hail soldiers, farmers, science and research), he said.

"We have to work together on various fronts to make India a global centre of research and innovation in this 'amrit kaal'. We have to take our research in the fields of science and technology to the local level. It is the need of the hour for all the states to lay emphasis on innovation to find local solutions to local problems," he said.

Urging the state governments to frame modern policies related to science, innovation and technology to find solutions to local problems,

he stressed the need for more co-operation and collaboration with scientists.

"In order to encourage innovation, the state governments should give emphasis on creation of more and ore scientific institutions and on simplification of processes. The number of innovation labs should also be increased in the institutions of higher education in states," he said. PM Modi said India's Global Innovation Index ranking improved from 81 in 2015 to 46 due to the efforts of the central government. There is a need to find localised solutions to issues like affordable housing, climate-resilient crops and waste recycling, he said.

"It is important that to deal with all these challenges, every state should frame modern policies re-

lated to science, innovation and technology and implement them. As governments, we should cooper-

ate and collaborate more and more with our scientists. This will help create an environment of scientific modernity in the country," he said. He also called for "optimum utilisation" of scientific institutions in the states. "There are many national-level scientific institutes and laboratories in states. So the states should take full advantage of their ability and expertise. We also have to take our science-related institutions out of silos," he said.

He pointed out how unlike the West, India failed to celebrate the works of our scientists in the early decades of the last century as much as was required, which led to an emergence of feeling of indifference

towards science among a large section of our society.

"When we celebrate the achievements of our scientists, science becomes a natural part of our society, it becomes part of culture. Therefore, today my first request is that we celebrate the achievements of the scientists of our country with great enthusiasm," he said. "Today in every area, Indian scientists are working wonders. The inclination towards science created by celebrating every small and big achievements of Indians scientists will help us in our 'amrit kaal'," he added.

PM Modi said his government is moving forward with the idea of science-based development. Since 2014, there has been a significant increase in investment in the field of science and technology, he said.

The record number of patents, innovations and emergence of start-ups show how fast things were changing in the country, he said. "There is inclination for science, technology and innovation in the DNA of today's generation. They adopt technology very fast. We have to support this young generation with all our might. In India, new sectors are being created, opening up for the young generation today," he said. "Whether it is a space mission, deep ocean mission, national supercomputing mission, semiconductor mission, hydrogen mission, drone technology...works are moving fast on many such missions," he said.

20 Killed In Maharashtra During Ganesh Idols' Immersion Ceremonies

Mumbai: At least 20 persons died, 14 of them due to drowning, in different incidents that occurred during the immersion of Ganesh idols in parts of Maharashtra, police said on Saturday.

The 10-day Ganesh festival, which had started on August 31, ended on Friday.

In Wardha district, three persons drowned at Sawangi, while another one died in a similar manner at Devli, an official said.

Two persons drowned in a pond in Yavatmal district when during the immersion of an idol, he said.

In Ahmednagar district, two persons drowned in separate incidents at Supa and Belvandi, he said, adding that two others died in Jalgaon district of north Maharashtra - one each at Chalisgaon and Jamner.

One person each died at Ghodgaon and Yavat in Pune district, in Dhule district, Lonikand in Satara district and Solapur city, he said.

Four persons died in a road accident at Sakardara area of Nagpur city during Ganesh immersion, he said.

In Thane, a 55-year-old woman was killed and four others injured after a tree collapsed on a Ganesh pandal in Kolbad area due to heavy rains. The incident occurred on Friday night, a civic official said.

"A huge tree fell on the pandal while the 'aarti' of Lord Ganesh idol was on as part ahead of its immersion. The woman, Rajashri Walavalkar, was seriously injured in the mishap. She and other injured were rushed to a hospital, where she was declared brought dead," the official said.

Meanwhile, at least 11 persons, including a nine-month-old child, were injured after suffering an electric

shock at Panvel in Raigad district during a procession. The incident took place on Friday evening at Wadghar Koliwada after a cable of an electric generator snapped, an official said.

"At least 11 persons, who were part of the procession, came in contact with the cable and sustained injuries. The injured include four children," he said.

While some of them were rushed to a private hospital, others were taken to a state-run hospital in Panvel, he said, adding that all are responding well to the treatment.

Some incidents related to law and order situation were also reported in parts of the state during the immersion.

A fight broke out between the supporters of Maharashtra Chief Minister Eknath Shinde and Shiv Sena president Uddhav Thackeray at Tophkhana in Ahmednagar district, an official said.

In Jalgaon, a group of people hurled stones at the mayor's bungalow during the Ganesh immersion procession, he said, while a clash broke out between two groups at Mundhwa in Pune city. A brawl occurred at Shikrapur in Pune district over bursting firecrackers, while in Chandrapur, a fight was reported between Ganesh mandal volunteers.

Fresh US sanctions on Iran's ministry over cyberattack on Albania

WASHINGTON: The United States on Friday imposed sanctions on Iran's Ministry of Intelligence and Security and its minister, accusing them of being tied to a disruptive July cyberattack on Albania and engaging in other cyber activities against the United States and its allies.

The move comes after Albania severed diplomatic relations with Iran on Wednesday for the same incident, ordering Iranian diplomats and embassy staff to leave within 24 hours.

The US treasury department in a statement said the Ministry of Intelligence and Security directs several networks of cyber threat actors, including those involved in cyber espionage and ransomware attacks in support of the Iranian government. "We will not tolerate Iran's increasingly aggressive cyber activities," the Treasury's Under Secretary for Terrorism and Financial Intelligence, Brian Nelson, said in the statement. Tehran accused of disregarding 'norms of responsible peacetime state behaviour in cyberspace'. The ministry was already designated under US sanctions. Iran's mission to the United Nations in New York did not immediately respond to a request for comment. Microsoft, whose cybersecurity research team helped investigate the incident, said in a blog post <https://www.microsoft.com/security/blog/2022/09/08/microsoft-investigates-iranian-attacks-against-the-albanian-government> that the Iranian cyber operation involved a combination of digital espionage techniques, data wiping malware and online information operations. The goal of the hackers, according to researchers, appeared to be to embarrass Albanian government officials. The July attacks temporarily disrupted government websites and other public services. Analysts believe the operation was intended to punish Albania for supporting Mujahedin-i-Khalq.

India rice export curbs trap 1m tonnes at ports

MUMBAI: Rice loading has stopped at Indian ports and other types on Thursday as the world's biggest exporter

nearly one million tonnes of grain are trapped there as buyers refuse to pay the government's new 20 per cent export levy on top of the agreed contract price, five exporters told Reuters on Friday.

India banned exports of broken rice and imposed a 20pc duty on exports of various

of the grain tries to boost local supplies and calm prices after below-average monsoon rainfall curtailed planting.

"The duty became effective from midnight, but buyers are not ready to pay the duty," said B.V. Krishna Rao, president of the All India Rice Exporters Asso-

ciation (AIREA). "We have stopped loading vessels." India ships around two million tonnes of rice every month, with large amounts loaded from eastern ports such as Kakinada and Visakhapatnam in Andhra Pradesh state.

In similar circumstances, New Delhi has in the past provided exemptions for contracts backed by letters of credit (LCs), or payment guarantees, issued until the day the government made a policy change, said Himanshu Agarwal, executive director at Satyam Balajee, India's biggest rice exporter. But that has not happened this time.

"Margins are wafer-thin in rice business and exporters can't afford to pay 20pc duty. The government should allow exports against already issued LCs," Agarwal said.

Named King At Royal Ceremony, Charles Says "Deeply Aware" Of Duties

Charles III was formally proclaimed Britain's new king by the Accession Council on Saturday in a history-laden ceremony following the death of his mother Queen Elizabeth II. The council, televised for the first time, is a centuries-old formality to recognise the new king's sovereignty even though he automatically became monarch after the queen's passing. The 73-year-old Charles officially took his vow as the new king, saying he was "deeply aware" of the "duties and heavy responsibility of sovereignty". Several hundred privy councillors including current Prime Minister Liz Truss and all of her living predecessors, Charles's wife Camilla and his eldest son and heir William all attended.

Charles said his mother, who died on Thursday in Balmoral aged 96, "gave an example of lifelong love and of selfless service" that he promised to emulate.

"I know that I shall be upheld by the affection and loyalty of the peoples whose sovereign I have been called to be," he

said. He added he was "profoundly encouraged by the support of my beloved wife". Held in a grand room at St James's Palace decked out in crimson and gold, the Accession Council took place in two parts, the first of which Charles was absent while they proclaimed him king.

The clerk of the council announced that "Prince Charles Philip Arthur George is now, by the death of our lady sovereign of happy memory, become our King Charles III... God save the king!"

The assembled councillors then repeated "God save the king".

Charles's accession will be announced publicly by a trumpet fanfare and a proclamation from a balcony of the palace at 1000 GMT. Charles III... God save the king!"

The assembled councillors then repeated "God save the king".

Charles's accession will be announced publicly by a trumpet fanfare and a proclamation from a balcony of the palace at 1000 GMT.

North Korea adopts law for nuclear first strike

SEOUL: North Korea has passed a law allowing it to carry out a preventive nuclear strike and declaring its status as a nuclear-armed state "irreversible", Pyongyang's official media said Friday.

The announcement comes at a time of crumbling ties between the North and South, with Pyongyang blaming Seoul for the outbreak of Covid-19 in its territory and conducting a record number of weapons tests this year.

The law will allow North Korea to carry out a preventive nuclear strike "automatically" and "immediately to destroy the hostile forces" when a foreign country poses an imminent threat to

Pyongyang, the official Korean Central News Agency (KCNA) said.

With the newly enacted law, "the status of our country as a nuclear weapons state has become irreversible", leader Kim Jong Un said, according to KCNA.

Kim in July said his country was "ready to mobilise" its nuclear capability in any war with the United States and the South. He reiterated that Pyongyang would never give up the nuclear weapons it needed to counter hostilities from Washington, claiming the United States sought to "collapse" his regime at any time.

Nuclear talks and diplomacy

between Washington and Pyongyang have been derailed since 2019 over sanctions relief and what Pyongyang would be willing to give up in return.

"There is absolutely no such thing as giving up nuclear weapons first, and there is no denuclearisation and no negotiation," leader Kim said during a speech at North Korea's rubber-stamp parliament on Thursday, KCNA reported.

The new law shows Kim's confidence in his country's nuclear and military competence, including its intercontinental ballistic missiles capable of hitting the US, said Cheong Seong-chang of the Centre for North Korea Studies at the Sejong In-

stitute.

The law "publicly justifies Pyongyang's use of its nuclear power" in the event of any military clash, including in response to non-nuclear attacks, Cheong said.

A blitz of North Korean weapons tests since January included the firing of an intercontinental ballistic missile at full range for the first time since 2017. Kim in July said his country was "ready to mobilise" its nuclear capability in any war with the United States and the South. He reiterated that Pyongyang would never give up the nuclear weapons it needed to counter hostilities from Washington, claiming the United States sought.

Blackout has put Ukraine N-plant's operation in danger, says IAEA

VIENNA: A blackout caused by fresh shelling near Ukraine's Zaporizhzhia nuclear power plant has compromised the site's safety, the UN atomic watchdog warned on Friday, adding the plant's operator is considering shutting down the sole remaining reactor.

"Shelling has caused a complete blackout in Energodar (town) and compromised the safe operation of the nearby Zaporizhzhia (plant)," International Atomic Energy Agency (IAEA) chief Rafael Grossi tweeted, calling it a "dramatic development".

"This is completely unacceptable. It cannot stand," he said, calling for "the immediate cessation of all shelling in the entire area".

"Only this will ensure the security of operating staff and allow the durable restoration of power to Energodar and to the power plant," he added.

The Zaporizhzhia plant is Europe's largest nuclear power facility.

It was occupied by Russian troops in March and has been shelled in recent weeks, with Ukraine and Russia blaming each other for the attacks, raising fears of a nuclear disaster.

Grossi said he learned of the shelling on Friday from IAEA staff on the site.

The shelling of the switchyard at Energodar's thermal power plant has led to a "complete pow-

er blackout" in the city, where the Zaporizhzhia nuclear power plant is located, he said.

"No running water, no power, no

said.

The plant in recent days has relied on this reactor for the power it needs for cooling and other safe-

sewage," he said. "Significant risk" Plant operators and others living in Energodar faced "increasingly dire circumstances", with a "significant risk" there would no longer be enough essential staff at the plant. And there was "little likelihood of re-establishing reliable offsite power" given the increased and continued shelling, he added.

"As a result, the IAEA understands that the operator, having no longer confidence in the restoration of offsite power, is considering shutting down the only remaining operating reactor," he

ty functions. "The entire power plant would then be fully reliant on emergency diesel generators for ensuring vital nuclear safety and security functions," Grossi warned.

The IAEA called on Tuesday for a security zone to be set up around the Zaporizhzhia nuclear power plant, saying the current situation was "untenable".

The IAEA sent a 14-person team to the site last week. Two members are remaining there on a permanent basis to ensure the facility's safety. Kyiv on Wednesday called

for an international mission to be set up at the plant and for the population to evacuate the area amid fears of a nuclear disaster. "No running water, no power, no sewage," he said. "Significant risk"

Plant operators and others living in Energodar faced "increasingly dire circumstances", with a "significant risk" there would no longer be enough essential staff at the plant. And there was "little likelihood of re-establishing reliable offsite power" given the increased and continued shelling, he added.

"As a result, the IAEA understands that the operator, having no longer confidence in the restoration of offsite power, is considering shutting down the only remaining operating reactor," he said. The plant in recent days has relied on this reactor for the power it needs for cooling and other safety functions.

"The entire power plant would then be fully reliant on emergency diesel generators for ensuring vital nuclear safety and security functions," Grossi warned.

The IAEA sent a 14-person team to the site last week. Two members are remaining there on a permanent basis to ensure the facility's safety.

Ukraine troops raise flag over railway hub as advance threatens to turn into rout

Ukrainian officials shared photos on Saturday showing troops raising the nation's flag over the main railway city that has supplied Russian forces in northeastern Ukraine, as a collapse in Russia's frontline threatened to turn into a rout.

A Reuters journalist inside a vast area recaptured in recent days by the advancing Ukrainian forces saw Ukrainian police patrolling towns and boxes of ammunition lying in heaps at positions abandoned by fleeing Russian soldiers. With Ukrainians now having reached the city of Kupiansk, where rail lines linking Russia to eastern Ukraine converge, the advance had penetrated all the way to Moscow's main logistics route, potentially trapping thousands of Russian troops. Natalia Popova, adviser to the head of the Kharkiv

regional council, shared photos on Facebook of troops holding up a Ukrainian flag in front of Kupiansk city hall. A Russian flag lay at their feet. "Kupiansk is Ukraine. Glory to the armed forces of Ukraine," she wrote.

In Hrakove, one of dozens of recaptured villages, Reuters journalists saw burnt out vehicles bearing the "Z" symbol of Russia's invasion, and piles of rubbish and ammunition in positions the Russians had abandoned in evident haste. "Hello everyone, we are from Russia," was spray painted on a wall. Three bodies lay in white body bags in a yard. The regional chief of police, Volodymyr Tymoshenko, said Ukrainian police had moved in the previous day, and had checked the identities of local residents who had lived under Russian occupation since the invasion's.

Zonal Level LG Rolling Trophy Trial Cum Selection of Harni Zone

M S Nazki

Mendhār The department of youth services and sports zone Harni conduct trial cum selection for LG Rolling Trophy in which 75 players participated at HSS HARNI ground. On this occasion chief guest was Mohd Hanief Mir(PEL) appreciated all the players to play best and avoid drugs beaware from drug peddler. He also appreciated the step taken by honourable LG Manoj Sinha to direct the concentration of youth towards sports. On this occasion field staff of zone Harni and selection committee members Mohd Shanazkhan, Majid Khan, Shamim Khan, Ravi Raj Sharma, Ayaz Hussain Shah, Nahiem Khan, Javid Iqbal, Waseem Iqbal, Rohial Ayaz Khan and overall supervision by ZPEO also nodal officer of the event Mohd Basharat Khan

Premier League games postponed to mourn Queen, cricket goes ahead

LONDON: All football fixtures in England between Sept 9-11 were postponed by the country's Football Association (FA) on Friday as a mark of respect following the death of Queen Elizabeth but cricket and rugby matches will go ahead as planned this weekend.

Football's top flight Premier League and the English Football League had already announced they were postponing their next round of fixtures.

The queen, Britain's longest-reigning monarch, died peacefully at her home in Scotland on Thursday aged 96. "As a mark of respect, following the passing of Her Majesty the Queen, English football has united to postpone all football fixtures between 9-11 September," the FA said in a statement.

"The FA can confirm that all football fixtures across the Barclays Women's Super League, Barclays Women's Championship, the Vitality Women's FA Cup, and the Isuzu FA Trophy, will be postponed this weekend."

Matches across the lower tiers of the football pyramid and grassroots football were also postponed, the FA added.

The Department for Digital, Culture, Media and Sport (DCMS) had earlier provided guidance saying there was "no obligation to cancel or postpone events and sporting fixtures, or close entertainment venues during the National Mourning period".

The Premier League said a decision on postponing the fixtures was made in a meeting on Friday.

"To honour her extraordinary life and contribution to the nation, and as a mark of respect, this weekend's Premier League match round will be postponed, including Monday evening's game," it said.

With fixtures next weekend potentially impacted by the policing operation in London for the funeral, football authorities face the headache of a fixture pile-up in a season already congested by a mid-season World Cup.

The EFL said all its fixtures from Sept 9-10 will be postponed.

Earlier on Friday, all football fixtures in Northern Ireland this weekend were postponed.

The Football Association of Wales said it had postponed fixtures from Sept. 9-12 at all levels of the game while professional matches in Scottish football were also cancelled.

England's cricket board (ECB) said the Test between England and South Africa will resume at The Oval on Saturday after Friday's day two was suspended.

The first day had been washed out without a ball being bowled.

"She loved sport, be honoured to play in her memory," England captain Ben Stokes tweeted in response to a question on whether sporting events should go ahead.

A minute's silence will be observed before the national anthem, with players and coaches from both sides wearing black armbands.

“My Youth My Pride” 3-Days J&K UT Pencak Silat Cup-2022

Srinagar 10th September 2022:

3-Days J&K UT Pencak Silat Cup 2022 concluded today in Indoor Sports Hall Polo ground, Srinagar today. The event was organized by Pencak Silat Association of J&K in collaboration with J&K sports council under the banner of “My Youth My Pride”. DDC Member Khonmoh Er Aijaz Hussain was the chief guest and Mohammad Iqbal Manager Sports council was the guest of honor. The medals were awarded among the medalist and trophies and mementoes among the Referee jury's and technical staff. More than 900 participants from 16 districts of J&K participated in this event. Speaking on the occasion,

Er. Aijaz said that Pencak Silat Association is doing a

wonderful work for the involvement of youths across the state and my best wishes to them and I am sure that in the coming years, there will be a huge participation of women folk in

the sport, which help them in carrier as well as way of

zhat Gul and her team. Nasir Ahmad Digoo, President, Pencak Silat Association of J&K is the organising secretary of the event. He along with Mudassir Masoodi, District President Srinagar and district heads from other districts like Budgam, Ganderbal, Pulwama, Anantnag, Shopian, Kulgam, Bandipur, Baramulla, Kupwara, Poonch, Doda, Ramban, Kishtwar and Reasi were also present on the occasion.

The president was also flanked by Mufti Hamid Yasin, Secretary General Indian Pencak Silat Federation.

The event is being monitored by Mohammad Iqbal Incharge Indoor Hall, Pologround Srinagar.

Underdogs Sri Lanka have high hopes, but won't take Pakistan lightly in Asia Cup final

Sri Lanka are poised for an unlikely Asia Cup victory over favourites Pakistan in Sunday's final after a giant-slaying streak through the tournament despite troubles at home.

The island nation had to abandon plans to host the Twenty20 competition due to political unrest and stumbled in their opener to Afghanistan by eight wickets, with nearly 10 overs remaining.

But the five-time champions bounced back to beat Bangladesh, Afghanistan and tournament favourites India, scuttling a hotly anticipated finals showdown between Rohit Sharma's men and archrivals Pakistan.

Friday's closing Super Four match was a dress rehearsal for the Dubai final — and Sri Lanka's fourth straight victory, albeit with Pakistan missing two of their key players.

On Sunday they will depend on the spin pairing of Wanindu Hasaranga and Maheesh Theekshana, who helped bowl out Pakistan for 121 on Friday in a comfortable five-wicket win.

Opener Pathum Nissanka led the

batting charge with an unbeaten 55

in a clinical show, but skipper Dasun Shanaka warned his team of com-

placency. "The confidence we have is massive after four consecutive wins, but we still don't take Pakistan lightly in the final," Shanaka told reporters. "We know they are a very good side and enough good players in their side to come back strong and we should be ready for that."

Sri Lanka's Pathum Nissanka (R) and Wanindu Hasaranga leave the field after winning the Asia Cup Twenty20 international cricket Super Four match between Pakistan and Sri Lanka at the Dubai International Cricket Stadium in Dubai on

Friday. — AFP

Sri Lanka fared well in their recent home series of two Tests against Pakistan, played in Galle against the backdrop of a punishing economic crisis and political unrest.

Shanaka said his side had been bombarded with "messages of love and support" and its Asia Cup success had brought cheer back home after miserable months of blackouts, fuel shortages and protests.

"So nice that we are winning and giving back something to them," he said. Confidence and passion

Pakistan are weathering their own troubles at home with monsoon floods that have inundated a third of the country.

But the team have shone through the tournament, a curtain-raiser for next month's T20 World Cup in Australia, avenging an opening game loss to India and clinching a last-over thriller against Afghanistan.

Fast bowler Naseem Shah and all-rounder Shadab Khan both missed Friday's showdown, but will lengthen Sri Lanka's odds when they return for the final.

Swiatek to face Jabeur in maiden US Open final appearance

NEW YORK: An emergency break powered world number one Iga Swiatek into a US Open final showdown with trailblazing Tunisian fifth-seed Ons Jabeur on Thursday.

Two-time French Open champion Swiatek advanced to the first US Open final of her career after coming from behind to beat Aryna Sabalenka 3-6, 6-1, 6-4 at the Arthur Ashe Stadium.

The victory sent the

21-year-old from Poland into a Saturday final with Jabeur, who thrashed France's Caroline Garcia 6-1, 6-3 in Thursday's other semi-final.

Sabalenka, the sixth seed from Belarus, looked poised to create an upset after a dominant first set performance in which she broke Swiatek no fewer than three times.

But Swiatek was rejuvenated after a quick dash to the bathroom

following the opening

set.

"I kind of needed to go," Swiatek said. "For sure I felt lighter. I'm

sorry — that's disgust-

ing."

Swiatek also said the break had helped her analyse the flaws in

her first set performance.

"I tried to use that time to think about what to change because I remember when I was younger all I would do in the bathroom between sets after I lost was cry. "But this time I could think about what to change and actually problem solve."

The break did the trick as Swiatek raced through the second set to level the match and

then punished a late collapse from Sabalenka to close out a gutsy victory.

Sabalenka, who was up a break and leading 4-2 in the final set, was left distraught by the defeat. She later appeared at a press conference with mirrored sunglasses on and a baseball cap pulled over her face.

It was the third time Sabalenka has fallen short in the semi-finals of a Grand Slam.
